NAVIGATING GROWTH WITH THE COMPASS AND THE ANCHOR

In FY2025, SBFC Finance Limited navigated a transformative journey, anchored by our commitment to empowering Micro, Small, and Medium Enterprises (MSMEs) across India. Our guiding theme, “The Compass and the Anchor,” reflects the dual focus that shaped our growth for the period: strategic foresight and strong financial discipline. This theme speaks to how we balanced the dynamic pursuit of new opportunities, with the stability of sound financial practices.

The Compass: Strategic Direction

Throughout the year, we sharpened our strategic focus, expanding our footprint to 205 branches across 16 states and two Union Territories. This growth enabled us to reach underbanked populations in Tier II and Tier III cities, bringing financial inclusion to the forefront. By serving over 90,000 customers, we provided essential financial solutions tailored to the aspirations of India's entrepreneurial spirit.

In February 2025, we secured INR 4,000 million from British International Investment (BII), the UK's development finance institution. This funding has been pivotal in supporting low-income entrepreneurs and women borrowers, help to reach up to 5,000 new customers. It reflects our commitment to fostering economic resilience and growth among those who need it most.

Our compass also guided us through digital transformation. By embracing technology, we enhanced customer experiences, improved operational efficiencies, and strengthened risk management framework. This strategic shift positioned us to respond agilely to changing market conditions while ensuring that our services remained accessible and efficient.

The Anchor: Financial Discipline

While growth has been central to our journey, our progress has been grounded in a disciplined approach to financial management. As of March 31, 2025, our Assets Under Management (AUM) stood at INR 8,747 crores, marking significant growth. Our Profit After Tax reached INR 345 crores for the period, reflecting the strength of our operational model and our focus on sustainable value creation.

We maintained healthy net interest margins, controlled credit costs, and ensured stable asset quality across our portfolio. Our robust risk management practices and adherence to regulatory standards provided the financial stability necessary to support our growth ambitions. These measures have not just safeguarded our performance but have reinforced the trust of our stakeholders.

Looking Ahead

Our commitment to Environmental, Social, and Governance (ESG) principles has been integral to our strategy. By focusing on underserved segments—especially women entrepreneurs and low-income communities—we contributed to inclusive economic development. Our efforts go beyond financial support; they help formalize India's informal sector, fostering long-term sustainability and resilience.

Reflecting on FY2025, “The Compass and the Anchor” has been more than just a theme—it has been a philosophy guiding every decision we made. By balancing strategic growth with financial discipline, we have created a platform for sustained impact. As we look to the future, we remain committed to driving economic progress, empowering MSMEs, and delivering lasting value to all our stakeholders.

Company Overview

SBFC at a glance

We are a Non-Banking Financial Company (NBFC), operating at the intersection of technology and trust, serving India’s credit-starved micro and small businesses. With a strong phygital distribution model, robust underwriting practices and best-in-class risk governance, we have emerged as a lender of choice in the ₹5 –30 lakh MSME financing segment — a ₹3.2 lakh crore opportunity growing at 24% CAGR.*

What We Do

SBFC provides secured MSME loans and gold loans, with nearly 100% of our book being secured. Our core focus is the credit needs of India's self-employed entrepreneurs in Tier II and Tier III cities. With average ticket sizes of ₹9.49 lakh (MSME) and ₹0.94 lakh (gold), our offerings are tailored for accessibility and sustainability.

Our in-house sourcing, real-time analytics, and decentralised credit evaluation enable faster turnaround times and deeper market penetration, while our robust collections infrastructure ensures portfolio strength.

Our Business Footprints

205 branches

Operating in 16 states and 2 Union Territories, across 205 branches and 157 cities

1.71 lakh customers

Serving 1.71 lakh live customers as of FY2025

4,294 employees

100% in-house sourcing, anchored by a growing workforce of 4,294 employees

End-to-end phygital operating model with innovative technology deployment across origination, underwriting and collections

Our Vision

To build a world-class financial institution that delivers scale, profitability and governance.

Our Mission

To make loans easy by designing and delivering them with excellence, agility and integrity. We will use technology and human knowledge to find deserving customers and make the loan experience easy for them.

Our Strategic Pillars

SBFC's growth is underpinned by a clear and focused strategy built on five core pillars.

- 01 We offer **Customer-Centric Products** designed to unlock maximum asset value through secured loans, competitive pricing and serving the underserved.

02 Our **Strong Credit Culture** is reflected in our AA- (Stable) credit rating, a well-managed Gross NPA ratio of 2.74%, and a healthy Provision Coverage Ratio of 45.69%.

03 **Governance-Led Growth** remains a cornerstone of our institution, anchored in institutional discipline, active board oversight and transparent disclosures.
- 04 **Technology Enablement** is at the heart of our operations, with a mobile-first CRM, a Business Rule Engine (BRE)-driven loan origination system, digital KYC, real-time dashboards, seamless digital payments and robust disaster recovery readiness.

05 Above all, our **Inclusive Impact** is visible in the way we empower MSMEs, women entrepreneurs and low-income borrowers through responsible lending practices and collaborative co-lending programme.

Performance Snapshot – FY2025

Leading with clarity, anchored in responsibility

The financial year 2025 stands as a testament to our leadership’s ability to balance ambition with discipline.

Guided by this year’s theme, ‘**The Compass and the Anchor**’, we continued to advance our mission of empowering India’s underserved MSME sector through a dual focus: strategic foresight and financial strength. The compass represents our drive to explore new opportunities and extend financial inclusion into deeper geographies. The anchor reflects our unwavering commitment to institutional stability, governance excellence and prudent risk management.

This philosophy has shaped our decision-making at every level, from expanding our reach to reinforcing our operational backbone and risk controls. As we navigated a transforming financial landscape, our leadership remained focused on delivering consistent performance, ensuring that growth remained responsible, inclusive and resilient.

In the year ahead, SBFC’s aspirations are grand yet precise: to construct a lasting institution synonymous with scale, profitability and governance. Our strides are ambitious yet measured, ensuring that finance remains a transformative force for the MSMEs we serve. As we progress, our pledge to innovation, our expansion into untapped markets and our investment in our people, collectively write a new chapter in the financial narrative of India—one where SBFC’s influence is both transformative and enduring.

Message from MD & CEO

Mr. Aseem Dhru
Managing Director & CEO

FY2025 was a year in which we stayed steady in uncertain waters. While our loan disbursements moderated from the highs of the previous years, this was a deliberate decision to hold our course. We prioritised asset quality, operational robustness, and institution-building over chasing aggressive scale. In doing so, we protected the long-term health of our business and reinforced the foundations on which sustainable growth must rest.

Resilience, for us, was about using headwinds to test the strength of our anchors – our people, processes, and principles. Our growth engine remained strong, our NPAs held within the tolerance range and we delivered profitability of ₹345 crore. These results reflect our financial discipline and also our conviction in building a lasting Institution.

This year also reaffirmed the power of prudence. With the present risk of being caught off guard by credit slippages and liquidity pressures, we stayed ahead through robust risk management and a stable liability mix. We improved operational efficiency through technology, deepened our presence in underserved markets and expanded partnerships that enhance our impact.

SBFC has always been more than a lender. We are a bridge connecting ambition with access, especially for India’s small entrepreneurs. As we look ahead, our compass remains firmly pointed towards inclusive growth, and our anchor – our values – holds fast. We are ready to sail forward despite the headwinds because of the resilience we’ve built through them.

Aseem Dhru
MD & CEO
SBFC Finance Limited

Message from the Founding Team:

Navigating growth with strategic direction and financial discipline

At SBFC, our purpose is simple, yet powerful: to make finance easy and accessible for India's small businesses. This mission has remained our guiding compass since inception, and this year, we saw it come alive in more meaningful ways. FY2025 was a year of steadying the sails and strengthening our course. It was a year where we balanced ambition with prudence – staying true to our strategic direction while anchoring ourselves deeper in governance and discipline.

Humanising the Journey:

Our people, our differentiator

But numbers only tell part of the story. The real one is the story of our people – our field teams reaching the last mile, our credit officers making decisions with care and rigour, our data scientists refining our risk models, our tech teams ensuring every system hums quietly in the background. Every piece of this machinery matters. And together, it has worked.

This year, we saw the shift from being seen as a high-growth NBFC to being acknowledged as a resilient, process-driven institution with technology at its core and lending practices matured enough to weather macroeconomic volatility. This is a transition we are proud of – and one we intend to deepen further.

Our team prioritises the quality of our book over the pace of our growth – because resilience today is what secures our business tomorrow.

The Compass:

Strategic execution with momentum

We reached over 1.5 lakh customers across Tier II and Tier III India, expanding our footprint to 205 branches across 16 states and 2 Union Territories. In this expansion in scale – our focus remained on deepening our impact in the places that needed it most.

In FY2025, we secured ₹4,000 million from British International Investment (BII). More than a fundraise, this was a statement of trust in our model and our mission. The capital is now helping us reach women entrepreneurs and low-income borrowers – segments that are often overlooked but are central to India's growth story.

The Anchor:

Stability, predictability and governance

Internally, we made important strides in building institutional strength. Our co-lending partnerships matured, our liability profile diversified, and our digital infrastructure became even more robust. From onboarding to collections, our phygital model delivered scale with control. What used to take days now happens in minutes – and this efficiency is what makes our growth sustainable.

FY2025 also saw us deliver consistently strong financial performance. Profitability held firm, and so did our asset quality. Our credit ratings were reaffirmed at AA- (Stable) by CARE and ICRA. We were also included in the MSCI Global Small Cap Index – a recognition of our growing institutional maturity.

Looking Ahead:

Resilience with responsibility

Looking ahead, we know the journey will continue to test our resilience. But we also know that our foundations are strong. Our strategy and talent ensure that we are building an institution that can thrive across cycles. One that combines agility with reliability.

In doing so, we remain committed to three priorities:

- Expanding our reach in Tier II and Tier III India
- Maintaining underwriting discipline and strong asset quality
- Creating long-term value for all stakeholders

In an economic and political environment that is constantly changing, we take pride in knowing our bearings remain steady. We may sail different seas each year – but our compass stays true, and our anchor holds firm.

To our investors, customers, employees, regulators and partners – thank you for your continued trust. It gives us the confidence to keep moving forward with purpose and conviction.

Sincerely,

The Founding Team
SBFC Finance Limited

Thank you for your support in building a resilient institution – where quality is protected, risk is anticipated, and every loan strengthens its foundation.

Building a Business from the Ground Up

Trends Mens Wear | Sangli, Maharashtra

01

Mr. Suraj Mokashi, from Sangli, Maharashtra, is the owner of Trends Mens Wear, a clothing store he started six years ago. After completing his college education, Mr. Suraj began working at a friend's garment shop. It was here that he gained hands-on experience in retail, learned how to manage stock, understand customer preferences, and run day-to-day operations. While his father explored traditional employment options for him—many of which required upfront payments or fees—Mr. Suraj had a different vision. He decided to use his retail experience to start something of his own.

The Challenge

Mr. Suraj took a leap of faith and rented his own shop. The initial response was encouraging, and the business started picking up. But like many first-generation entrepreneurs, he faced the common challenges of limited capital and constrained growth. Despite his efforts, expanding the business remained a distant goal. He needed funding to take the next step but lacked access to formal credit options that were fast, flexible and suited to his business size.

How SBFC Helped

A chance interaction with a customer-turned-friend introduced Mr. Suraj to SBFC Finance. Encouraged by what he heard, Mr. Suraj reached out to us. We assessed his business, understood his needs and structured a loan that worked for him—without the complexity and delays often associated with traditional lenders. With this support, Mr. Suraj was able to invest further in his store, stabilise operations and focus on growing his customer base.

Mr. Suraj's story highlights what access to the right financial partner can do for small business owners. By supporting entrepreneurs like Suraj with timely, uncomplicated credit, we help turn individual effort into long-term enterprise.

Rebuilding and Expanding a Legacy Business

Sairam Auto Works | Betal, Karnataka

02

Mr. Salim Ahmed, a mechanical engineer by qualification, spent nearly 15 years working in the Gulf as a cost control, quantity surveyor and contract manager. Despite his professional success, he felt his work wasn't being valued the way he had hoped. Seeking a more fulfilling path, he returned to India with the ambition to build something of his own. He lives in Sangli with his parents, wife and three children.

03

Mr. Suresh, based in Betal, Karnataka, is the owner of Sairam Auto Works—a garage he has been running for the past 26 years. A hands-on entrepreneur, he has managed and operated the garage himself every day, steadily building a customer base over the years.

The Challenge

Mr. Salim initially planned to open a hotel, but the onset of the COVID-19 pandemic disrupted his plans, leading to financial losses of nearly ₹18–20 lakhs. Determined to rebuild, he shifted focus and started Say's Spices, with a vision to become a leading food manufacturer in India. For over five years, he funded the business on his own, but persistent challenges—especially in packaging—held him back. A loan from another lender failed to provide the kind of support he needed to grow the business.

How SBFC Helped

Mr. Salim approached SBFC. We understood his business potential and extended the support and funding he required. With our help, he was able to strengthen operations and address his packaging challenges. Today, his business runs smoothly, and Mr. Salim often recommends SBFC to others in his community—sharing the same trust he experienced with us.

Mr. Salim's story highlights how the right financial support, at the right time, can reignite entrepreneurial ambition. At SBFC, we enable transitions, helping experienced professionals like Mr. Salim turn their expertise into meaningful impact.

The Challenge

Like many small business owners, Mr. Suresh faced serious disruptions during the COVID-19 pandemic. Labour shortages and operational hurdles forced him to pause his garage work and return to his hometown, where he temporarily focused on managing his family's poultry farm. Once conditions stabilised, he resumed operations at his garage—but by then, business had slowed, and resources were limited. While he was eager to expand, he simply didn't have the capital to take the next step.

How SBFC Helped

A friend, and also a SBFC employee, encouraged Mr. Suresh to approach us. He reached out, and we were able to quickly understand his needs and offer him a loan that would support his business growth. The funds helped him strengthen operations and invest in expansion. Seeing the benefits, Mr. Suresh later availed a top-up loan as well. With the renewed confidence and business momentum, he now plans to open a second branch.

Mr. Suresh's journey reflects the kind of long-term value we create by supporting established entrepreneurs in their growth phase. Our ability to provide timely, need-based credit helps businesses recover and grow stronger than before.

Laxmi Venkat | Rajanukunte, Bangalore

04

Mr. Venkatesh Reddy has spent over 25 years working in the puffed rice industry, gaining deep knowledge and experience in the trade. He lives with his wife Krishnaveni Reddy and their son Shrikanth Reddy. Five years ago, he decided to apply his experience to build something of his own and started TVR Enterprises, a puffed rice manufacturing business.

05

Mr. Shirniwas lives in Rajanukunte, Bangalore, with his wife and two children. He works as a government employee, while his wife worked in domestic roles that involved constant movement—something that became increasingly difficult for their family. In 2020, they decided to take charge of their circumstances and opened a shop, Laxmi Venkat, using a loan from a bank.

The Challenge

Like many small business owners, Mr. Venkatesh faced serious setbacks during the COVID-19 pandemic. His operations were severely impacted, and business came to a standstill. However, once the economy began to recover, the demand for puffed rice surged again, offering him an opportunity to scale. Mr. Venkatesh was keen to expand, but lacked the capital to acquire land and invest in the equipment needed to set up a larger factory.

How SBFC Helped

When Mr. Venkatesh approached the SBFC office, our team worked closely with him to understand his requirements. With end-to-end support from our staff, including personalised assistance through the loan process, we were able to provide him with the funding needed to purchase new machinery and invest in factory expansion. Today, his business is operating at a much larger scale, with increased output and improved profitability.

Mr. Venkatesh's journey shows how timely and accessible financing can unlock the next stage of growth for experienced entrepreneurs. Our services enable small business owners to build on their strengths, and grow establishments that create lasting impact in their communities.

The Challenge

While the shop gave the family some financial stability, life threw unexpected challenges their way. In 2023, they faced significant financial pressure, compounded by the emotional and medical toll of Mr. Shirniwas's mother suffering a paralysis attack. With household expenses rising and business growth slowing, Mr. Shirniwas needed better financial support to keep things moving forward.

How SBFC Helped

A friend recommended SBFC, and Mr. Shirniwas reached out to us. He availed a balance transfer top-up loan, which enabled him to expand his shop and cover his mother's medical expenses. Impressed by the ease and responsiveness of our service, he later took a second top-up loan to build the first and second floor of his home—adding both space and security for his family.

Mr. Shirniwas's story shows that credit, when structured and delivered well, does more than just support a business: it safeguards families. Our approach enables people to meet immediate challenges and invest in long-term stability, all with the same trusted financial partner.

Anchored in purpose, sailed for impact:

Enabling the entrepreneurial journey of
India's households

India's micro, small, and medium enterprises (MSMEs) are the heartbeat of local communities, the foundation of self-reliance, and the catalysts of generational progress. Yet, for millions of entrepreneurs across the country, the lack of access to formal credit remains a defining barrier. At SBFC, we enable access to capital for underserved entrepreneurs, turning aspiration into action. Through our purpose-driven lending model, we are financing small businesses, supporting household enterprises, and creating pathways where ambition can grow without constraints.

Unlocking India's Credit-Starved Backbone

India is home to over 63 million MSMEs—a diverse ecosystem that powers nearly a third of the country's GDP. Yet, for all their economic significance, the vast majority of these enterprises operate in a credit vacuum. Formal financing remains elusive, particularly for businesses in smaller towns and lower-income households. The problem isn't lack of aspiration, but the lack of access.

At SBFC, we exist to bridge that gap by unlocking the economic potential of India's self-made entrepreneurs. Our lending philosophy is built on the premise that access to credit should be an enabler of dreams, not a barrier to them.

Credit is more than just capital. It is dignity, momentum, and the first push towards transformation.

Building Reach Where It Matters Most

Our business model has been intentionally designed to reach the underserved. With 205 branches across 157 cities, 16 States and 2 Union Territories, SBFC is now present in close to 25% of the total districts across the states we operate in. This geographic footprint surpasses density and emphasises deepening inclusion in regions where formal credit systems have historically been under-penetrated.

Every branch we open brings us closer to a borrower who previously had to rely on informal sources. Our reach is still only a fraction of the total opportunity, and that's precisely where our long-term growth runway lies.

25%

SBFC is present in nearly 25% of districts in the states we operate—yet the opportunity is still just unfolding.

Empowering Women and Low-Income Households

This year, we took a step further in deepening inclusion, not just geographically, but demographically too. A portion of our borrowing has been raised specifically to support two critically underserved segments: low-income households and women entrepreneurs. Through a strategic partnership with British International Investment (BII), we have secured ₹400 crore in funding, half of which is earmarked for each of these focus groups.

These are borrowers who have historically remained outside the scope of mainstream lending. By targeting credit toward them, we aim to fill a market gap while also catalysing generational progress.

When a woman entrepreneur rises, so does her household, her community, and the next generation.

A Loan is a Beginning, Not the End

We view our customers as aspiring entrepreneurs on a path to progress. From saree manufacturers in Karnataka to workshop owners in Pune and retail traders in Uttar Pradesh, the stories behind our loans are stories of resilience, ambition and steady advancement.

Every enterprise we support contributes to its neighbourhood, creating livelihoods, enabling services, and driving local demand. In this sense, our purpose goes beyond credit, it becomes a catalyst for upward mobility.

As we look ahead, our journey is firmly anchored in deeper trust, stronger systems, and more meaningful impact.

Resilience Rooted in ESG Commitment

While our financial services create economic impact on the ground, we continue to integrate environmental, social and governance (ESG) principles into our broader operations. Our ESG philosophy is embedded in action, from formalising risk frameworks to community development initiatives that complement our business reach.

Our CSR initiatives reflect this commitment. From supporting infrastructure upgrades in rural schools in Gujarat and Rajasthan to mobile ophthalmic vans in Maharashtra, we are building more than balance sheets—we are building human capital. Our flagship training initiative, SBFC Gurukul, has trained over 616 youth from underserved backgrounds in FY2025, with 49% of certified trainees absorbed into our workforce.

The Road Ahead: Purpose-Led Growth, Quality-First Execution

FY2025 has been a year of consolidation, focus, and maturity. While growth continues, our core fundamentals—credit quality, profitability, and operational efficiency—have remained steady and resilient. With a PAT of ₹3,451 million for the year, we are growing profitably, with each incremental gain enabling us to expand our CSR efforts. Our focus remains on building not just a high-growth company, but a high-quality institution.

We are here to grow responsibly, inclusively, and with enduring purpose.

Shiksha se Rojgar:

Creating economic empowerment through education, skill and healthcare

We support India's underserved households in moving from informal to formal financial systems. This transition begins with access to knowledge, skills and basic well-being.

Our CSR philosophy, Shiksha se Rojgar, means "From Education to Employment." It reflects our belief that financial empowerment is a journey built on three essentials: education, employability, and health. When these foundations are strong, individuals and households are better prepared to participate in and benefit from the formal economy.

By investing in the pillars of Education, Employability, and Health, we aim to create a long-term impact in the communities where we operate. We have aligned our CSR investments to the geographies where SBFC has operational depth – ensuring we create deep, locally relevant impact in regions like Tier II and Tier III Maharashtra, Gujarat, Rajasthan, and Madhya Pradesh.

Our CSR is not peripheral to our business. It is a natural extension of it. We finance households, but we also invest in the conditions that enable them to thrive. Whether it's a girl stepping into a new classroom, a young trainee finding their first formal job, or accessing to medical support – every one of these experiences underscores our efforts to build a financially and socially resilient India.

Education: Uplift of school infrastructure in aspirational districts

Shri Swaminarayan Vidyalaya
Manipura, Viramgam, Ahmedabad

In Gujarat, we enabled Shri Swaminarayan Vidyalaya to expand enrolment beyond Class 8, filling a critical education gap as government-provided schooling ends at this level.

Our support facilitated infrastructure upgrades that led to 90 new student admissions, including the introduction of Class 9 to 12.

The provision of separate washrooms helped improve inclusivity, with girl students now making up over 50% of the school's population.

This year, we also supported safe transportation so students can travel from neighbouring villages.

Government Upper Primary School
Tankariya, Sirohi, Rajasthan

In Rajasthan's aspirational district of Sirohi, we focused on basic infrastructure and digital inclusion.

Our support enabled the development of four smart classrooms, a common area for mid-day meals, and separate toilets.

As a result, the school enrolled over 200 new girls, reinforcing our belief that access creates inclusion.

Employability: SBFC Gurukul – skilling for local employment

Each of our branches is embedded in the local economy. We finance local businesses and hire local talent who understand the language, context, and customer mindset. SBFC Gurukul, our flagship skilling programme, takes this localisation strategy further by equipping underprivileged youth with skills that are relevant to our business.

Our model includes one-on-one counselling before enrolment, followed by structured induction, classroom sessions, on-the-job training, and buddy-based mentoring.

Health: Community healthcare for the underserved

We believe health is a precondition for economic participation. Through this pillar, we supported Cataract Screening healthcare initiatives in FY2025, focusing on regions where public health access remains limited.

Cataract Screening and Transport: Kale Village, Kolhapur

In Maharashtra, we supported the Chaitanyam Ophthalmic Institute with a 25-seater Mobile Ophthalmic Unit to ferry cataract patients from 297 remote villages to the institute in Kale village. This has helped marginalised farmers and elderly residents access life-changing care without travel burden. The intervention has restored sight and improved quality of life for hundreds of members of our community.

The Pillars Powering Our Purpose:

How we build, grow, and deliver value

Our business strategy is purposefully designed to address the evolving financial needs of India’s underserved segments. These pillars give us actionable frameworks that respond to the operating realities of our environment. Each pillar aligns our internal capabilities to the opportunities and headwinds in India’s MSME landscape, enabling us to scale with stability and grow with responsibility.

Digital backbone, human soul:

Technology as an enabler of inclusion
and execution

We operate in a segment where personal trust is paramount, and our customers often rely on face-to-face interactions. Yet, behind every physical engagement is a digital infrastructure designed for speed, precision and resilience. Our technology architecture has been thoughtfully built to bridge the real-world needs of India's underserved entrepreneurs with the efficiency and transparency of a fully digitised lending process. From customer onboarding to post-disbursal servicing, every step is powered by robust systems, intuitive platforms and automation tools — ensuring that while the experience remains personal, the execution is seamless, secure and scalable.

Technology is Our Engine, But the Customer is Still Our Compass

Our business ethos is rooted in a simple but powerful belief: the strength of our institution lies not just in the products we offer, but in the way we deliver them. Our technology strategy is a deliberate extension of this ethos. We are building for India's underserved entrepreneurs who need real solutions.

The typical SBFC customer may not initiate their journey online, but that does not mean they deserve anything less than a smooth digital experience post onboarding. Our technology stack enables this seamless bridge: from a physical interaction at the doorstep to a fully digitised loan lifecycle that is faster, more secure, and more transparent. This approach directly supports our strategy to scale with quality, keep costs efficient, and maintain high-touch, high-tech service delivery at the heart of our business model.

Technology serves best when it disappears behind the relationship it enables.

From Paper to Platform: The Phygital Transformation

Our lending journey reflects our business philosophy — meet the customer where they are, but take them where they need to be. The journey begins with a physical interaction, often in a semi-digital environment. Yet, once the initial data is captured, the process is entirely digitised through our advanced Loan Origination System (LOS) and Loan Management System (LMS).

This year, we undertook a comprehensive revamp of our LOS & LMS architecture to create a modern system that is modular, intuitive and designed for scale. The transition to a three-tier architecture, with segregated web and application layers, has improved system security, performance, and scalability. A new microservices-based architecture and a migration to an Oracle-based database have provided the system with agility and robustness — ready to support growing customer volumes and complex integrations.

Our LOS overhaul also includes the introduction of an Intermediate Banking System (IBS) layer as an API middleware. This enables seamless real-time system interactions and opens future integration possibilities with external partners, payment gateways and compliance systems.

The wireframe and workflow have also been redesigned for speed and precision. Customer onboarding for Gold Loans is now paperless, with embedded digital features

such as Aadhaar-based eKYC, PAN verification, and eSign capability. Risk controls have been enhanced with SDN list checks, customer deduplication, RBI-mandated validations and dual valuation models based on scheme thresholds.

The user interface has been refined for faster task execution — fewer clicks, cleaner screens, faster completion. Asset-level image documentation has replaced loan-level scanning, improving traceability and compliance. Loan renewal processes have been shortened, and operational tasks have been shifted from the front end — bringing efficiency, transparency and accountability.

At a broader level, our system is now a unified core platform that links origination, underwriting, disbursal, servicing, renewal, and closure into one tightly integrated system. For a lending institution like us, this transformation is aligned to our ambition of delivering impact at scale.

Our LMS overhaul integrates a three-tier architecture, microservices, and an API-centric framework—creating a secure, scalable, and modular digital backbone that transforms every physical loan file into an auditable, real-time digital asset.

Our end-to-end lending workflow

System Upgrades for Seamless Control and Growth

Complementing our LMS transformation is our **Sahayak lead management engine**: our in-house CRM designed to track sourcing effectiveness and branch performance. The platform is deeply integrated with HRMS hierarchy and allows geo-tagging, role-based access, OTP verification, deduplication and document uploads. Real-time dashboards bring visibility and rigour to every lead, while enhancing our sales-to-credit conversion pipeline.

These system upgrades support our broader business strategy: maintain cost discipline, scale with clarity, and keep execution aligned with risk frameworks. For an institution growing into deeper geographies, tech-enabled control mechanisms are fundamental to ensuring institutional integrity.

Robotic Process Automation: Speed Meets Consistency
Robotic Process Automation (RPA) is another layer of our digital strategy that helps us eliminate inefficiency, reduce human error, and reallocate time toward customer-facing value.

We have implemented RPA across multiple back-office functions including report generation, reconciliation, document tracking, compliance monitoring, and recurring operational routines. These bots execute high-volume tasks with precision, freeing our teams to focus on judgement-based decisions rather than repetitive operations.

RPA ensures that critical processes, from credit scoring to portfolio reviews, are faster and standardised. This has a material impact on our business: faster execution leads to faster disbursements, higher throughput per employee, and better portfolio monitoring.

Precision
RPA now ensures 100% accuracy and zero human delay in key back-office tasks.

Efficiency
RPA has reduced processing time across key back-office functions.

Resilience Built into the System: DR, BCP and Layered Controls

As we grow and scale, operational resilience becomes a strategic imperative. SBFC has invested in a comprehensive, enterprise-wide **Business Continuity Planning (BCP)** and **Disaster Recovery (DR)** framework that underpins our ability to serve customers without disruption, irrespective of external shocks.

Our DR infrastructure is anchored on a mirrored setup between our primary data centre in Mumbai and our Disaster Recovery site in Hyderabad. We conduct quarterly full-scale DR drills, where live operations are shifted to Hyderabad post end-of-day processing and run for a complete business day. This is a real-time stress test of our systems' capacity to manage business-as-usual operations under contingency conditions.

Data replication is managed via the N2WS Backup & Recovery appliance, enabling synchronous backups and near-zero RPO and minimal RTO performance. Our DR systems ensure that even in the event of a primary site failure, our business will continue without data loss, latency or compromise to service levels.

In parallel, we have hardened endpoint security through multi-tiered control layers: Advanced Endpoint Detection & Response (EDR), Data Loss Prevention (DLP) solutions, ZTNA-based email and web security protocols, role-based access through Active Directory, and Privileged Access Management (PAM) systems. Patch management and real-time threat detection are managed centrally, while regular audits validate infrastructure integrity.

Beyond tech, our governance architecture includes structured audits, fraud monitoring mechanisms, and training programmes for incident response readiness. Together, this layered control framework ensures that SBFC operates with digital sophistication and institutional integrity.

Efficiency at Scale: Execution Empowered by Tech

Efficiency at SBFC is a mindset, driven by technology and executed with intent. Our digital infrastructure enables collections to be tracked in real-time through mobile apps, CRM platforms that offer 360-degree customer views, and payment channels that allow customers to transact via UPI, BBPS and aggregator gateways.

Our tech-powered processes have led to measurable reductions in loan turnaround times, improving operating leverage while enhancing customer satisfaction. With embedded analytics at every stage, from lead origination to delinquency management, our teams now operate with sharper insights, better prioritisation, and improved outcomes.

Looking Ahead: A Digital Core with a Human Face

These comprehensive upgrades reaffirm our commitment to leveraging technology as a catalyst for sustainable growth, compliance, and superior customer experience. As we continue our digital journey, we aim to further integrate intelligent automation, data analytics, and customer-centric innovations in the coming year. As we look ahead, our digital infrastructure will continue to evolve to meet customer expectations, regulatory readiness and business ambition.

SBFC's financial performance, operations, and strategy overview.

The global economy in 2024 showcased remarkable resilience amidst numerous challenges, with growth stabilising at 3.2%.

Overview of the Global Economy:

The global economy in 2024 showcased remarkable resilience amidst numerous challenges, with growth stabilising at 3.2%. This steady expansion was underpinned by varying regional dynamics, reflecting both strengths and vulnerabilities across key economies. The United States maintained a growth rate of 2.8%, doing better than the previous estimates. This performance was bolstered by strong consumer spending and favourable financial conditions, reflecting the economy's underlying strength despite external headwinds. Meanwhile, India continued its robust growth trajectory, achieving an impressive 6.5% expansion, driven primarily by solid domestic demand and sustained investment activity.

Conversely, the Euro Area faced subdued growth, impacted by Germany's economic slowdown, stemming from weak manufacturing output and persistent trade uncertainties. In China, growth moderated to 4.8%, influenced by challenges within the property sector and waning consumer confidence, leading to a more cautious economic outlook.

Inflation Trends and Market Dynamics

Global inflationary pressures eased notably during 2024, with headline inflation declining from 6.8% to 5.9%. Advanced economies witnessed a faster disinflation rate than emerging markets, reflecting effective monetary tightening in developed regions. However, the global trade environment faced uncertainties exacerbated by rising protectionism and geopolitical tensions, particularly in the Middle East. These factors dampened global trade flows and weighed on investor sentiment.

In response to heightened geopolitical instability and increased market volatility, gold prices surged by 25.5% in 2024, reaffirming its status as a traditional safe-haven asset and an effective hedge against economic uncertainties.

Monetary Policy, Interest Rates, and Currency Markets

Interest rate movements in 2024 exhibited a mixed trajectory. Central banks in advanced economies gradually transitioned from aggressive tightening cycles towards a more neutral stance, cautiously lowering rates as inflationary pressures receded. Conversely, select emerging markets maintained elevated interest rates to curb inflation and support currency stability.

Policy rates in advanced economies and emerging market economies

Currency markets mirrored these policy shifts. The US dollar strengthened, driven by expectations of higher US interest rates and shifts in trade policies. In contrast, several emerging market currencies experienced volatility due to geopolitical tensions and fluctuating capital flows.

Outlook for 2025 – Growth, Inflation, and Policy Directions

Looking ahead to 2025, the International Monetary Fund's (IMF) World Economic Outlook Update (January 2025) forecasts global growth to remain stable at 3.3%. India is expected to sustain its impressive performance with a projected growth rate of 6.5%, continuing to lead significant economies in terms of expansion.

The United States is anticipated to grow at 2.7%, supported by robust labour markets and increased investment activities. The Euro Area is projected to experience a modest recovery, with growth improving to 1.0%, driven by easing financial conditions and strengthening domestic demand.

Growth Prospects

Source: World Economic Outlook Update, IMF, Jan 2025

Interest rates globally are projected to trend downward in 2025, contributing to a more supportive economic environment.

China's growth is forecast to moderate slightly to 4.6% as the government implements fiscal measures to mitigate trade uncertainties and stabilise the fragile property market. Other emerging markets are expected to maintain steady growth trajectories, with regions such as Latin America and sub-Saharan Africa benefiting from stable domestic demand and favourable commodity prices. However, geopolitical tensions, particularly in the Middle East, alongside persistent trade restrictions,

continue to pose significant downside risks to global economic prospects.

Inflationary Outlook and Policy Adjustments

Inflation is expected to decline further in 2025, supported by easing commodity prices and stabilising labour markets. The pace of disinflation, however, will vary across regions, with advanced economies likely to achieve inflation targets sooner than their emerging market counterparts.

Monetary policies are anticipated to ease gradually as inflation pressures subside, fostering more accommodative financial conditions. At the same time, fiscal tightening is expected in many advanced economies to ensure long-term economic sustainability.

Interest rates globally are projected to trend downward in 2025, contributing to a more supportive economic environment. The US dollar is likely to stabilise, although potential shifts in trade policies and ongoing geopolitical risks could trigger market fluctuations. Emerging market currencies may see modest appreciation underpinned by improved investor sentiment and the easing of global financial conditions.

Overview of the Indian Economy:

Despite global stagnation, rising geopolitical uncertainties, and the looming threat of a tariff war driven by growing protectionism, the Indian economy has successfully maintained its position as the world's fastest-growing major economy. Leveraging its demographic dividend and the expanding wealth of its middle class, India has demonstrated resilience across consumption, services, and, notably, its forex and capital markets,

enabling it to withstand global economic headwinds.

According to the first advance estimates released by the National Statistical Office (NSO), Ministry of Statistics & Programme Implementation (MoSPI), India's real Gross Domestic Product (GDP) growth for FY25 is projected at 6.4%. On the demand side, Private Final Consumption Expenditure (PFCE) at constant prices is expected to grow by 7.3%, supported by a rebound in rural demand.

According to the IMF's World Economic Outlook Update, January 2025, India is projected to maintain its position as the world's fastest-growing major economy, with a robust GDP growth rate of 6.5% in both 2025 and 2026. Resilient domestic demand, a thriving services sector, and sustained investment momentum underpin this rapid growth trajectory. The IMF highlights India's demographic advantages, rising middle-class income, and continued policy reforms as key drivers supporting its economic expansion. Despite global challenges, including geopolitical tensions and trade uncertainties, India's stable macroeconomic fundamentals, growing consumer base, and increasing focus on infrastructure development have fortified its growth outlook. The IMF also notes that India's external sector remains resilient, with substantial foreign exchange reserves and stable capital inflows, further strengthening its ability to weather global economic headwinds.

According to the IMF, India is projected to remain the world's fastest-growing major economy, with a GDP growth rate of 6.5% in 2025 and 2026.

India's monetary and financial sectors have exhibited strong performance during the first nine months of FY25, reinforcing the country's robust economic outlook. Bank credit has grown steadily, with credit growth aligning closely with deposit growth, while scheduled commercial banks (SCBs) have seen improved profitability, marked by declining gross non-performing assets (GNPAs) and a higher capital-to-risk weighted asset ratio (CRAR). Significant strides in financial inclusion have been achieved, with the Reserve Bank of India's Financial Inclusion Index rising from 53.9 in

The Reserve Bank of India's Financial Inclusion Index increased from 53.9 in March 2021 to 64.2 by March 2024.

March 2021 to 64.2 by March 2024, driven by the efforts of Rural Financial Institutions (RFIs) and Development Financial Institutions (DFIs). Capital markets are playing a pivotal role in supporting economic growth. The Indian stock market reached a new high in December 2024 and has remained consistently resilient despite geopolitical uncertainties and global

headwinds. The insurance and pension sectors have also strengthened the financial ecosystem, advancing universal coverage. However, the evolving financial landscape—with rising consumer credit, increasing non-bank financing, and a surge in IPO activity—necessitates a balanced regulatory approach to sustain growth while safeguarding financial stability.

Industry Overview:

Overview of the NBFC Sector in India:

India's non-banking financial company (NBFC) sector has emerged as a critical pillar of the country's economic ecosystem and is pivotal in extending credit to underbanked and underserved segments. India's NBFC sector is the third largest globally, following the USA and the UK, reflecting its rapid expansion and growing significance. Over the years, NBFCs have become instrumental in bridging the credit gap, particularly for small businesses, micro-enterprises, and rural populations that often remain beyond the reach of traditional banks.

India's NBFC sector is the third largest globally, after the USA and the UK.

The sector has experienced robust growth in recent years, with assets under management (AUM) rising by 23% in FY2024. However, the NBFC-MFI segment saw an 11.9% year-on-year decline in AUM, driven by reduced disbursements and increasing credit risk. Despite this setback, industry projections indicate a gradual recovery, with overall AUM growth expected to moderate to a healthier 15–17% by FY2026. This

anticipated slowdown is attributed to several macroeconomic and regulatory dynamics. A key concern is the rising level of delinquencies, especially in unsecured loans and microfinance segments, which has prompted NBFCs to exercise greater caution in lending. In response to these challenges, many institutions are recalibrating their loan portfolios and tightening credit norms to mitigate potential risks.

Funding dynamics have also shifted. NBFCs have relied heavily on bank funding to support their lending operations. However, regulatory adjustments have tightened liquidity channels, requiring NBFCs to diversify their funding sources and explore options such as capital markets, securitisation, and alternative investments to maintain credit flow.

Regulatory evolution has been another defining factor for the NBFC sector. The RBI's introduction of a scale-based regulatory framework has brought a more nuanced oversight approach, categorising NBFCs based on their size, complexity, and systemic importance. This framework aims to strengthen financial stability by ensuring that more prominent and interconnected NBFCs are subject to enhanced regulatory scrutiny. In addition, the RBI has sharpened its focus on customer protection, transparency in pricing, and governance standards, raising the bar for operational compliance across the sector.

According to a CRISIL report, infrastructure financing accounts for the largest share of NBFC credit at 24%, followed by MSME loans, which hold a 21% share of overall NBFC credit. Housing finance represents the third largest share of total outstanding NBFC credit, with a 16% share. The report also indicates that not only will NBFC credit reach ₹55.5 Tn by FY26, but disbursements towards MSMEs are expected to increase in the coming years, with their share of overall NBFC credit projected to rise to 23% by the end of FY26.

Risk management has taken centre stage as NBFCs navigate a more complex operating environment. With the RBI lowering rates by nearly 1% since February—most recently with a 50 bps cut—NBFCs are poised to benefit from improved margins. At the same time, institutions are strengthening credit appraisal frameworks, early warning systems, and portfolio monitoring to safeguard asset quality amid rising delinquencies and tightening regulatory oversight.

The broader macroeconomic context continues to influence the sector's trajectory. While India's strong domestic demand and economic growth offer tailwinds for credit expansion, external uncertainties—such as geopolitical tensions, rising protectionism, and fear of escalating trade wars fuelling inflationary pressures—pose intermittent challenges. Nevertheless, the sector remains well-positioned to sustain its growth momentum, supported by a deepening financial ecosystem, rising consumer aspirations, and the government's focus on financial inclusion.

RBI's 50 bps rate cut is set to boost NBFCs by widening margins through lower funding costs and slower loan repricing.

The number of exporting MSMEs grew from 52,849 in 2020-21 to 1,73,350 in 2024-25.

Overview of the MSME Sector in India:

Micro, Small, and Medium Enterprises (MSMEs) are the backbone of India's economy. They promote entrepreneurship, generate employment, and contribute significantly to the nation's GDP and exports. As of February 2025, the MSME sector encompasses over 5.93 crore enterprises, employing approximately 24.14 crore individuals.

The contribution of the MSME (Micro, Small, and Medium Enterprises) sector to India's Gross Domestic Product (GDP) has consistently increased. In 2020–21, MSMEs accounted for 27.3% of the country's Gross Value Added (GVA). Currently, this figure exceeds 30%. The government aims to raise the sector's contribution to the GDP from the current 30% to 50%.

MSMEs have demonstrated remarkable resilience and adaptability, significantly contributing to India's export performance. Exports from MSMEs witnessed a substantial rise, increasing from ₹3.95 lakh crore in 2020-21 to ₹12.39 lakh crore in 2024-25. The number of exporting MSMEs also grew from 52,849 in 2020-21 to 1,73,350 in 2024-25. This growth underscores the sector's critical role in boosting India's economy and strengthening global trade.

Credit and Financial Inclusion

Source: Unified Lending Interface (ULI) Changing the credit landscape in India, PWC, Dec 24.

The MSME sector's total funding requirement is projected to reach ₹134.40 lakh crore, with a total debt demand estimated at ₹106.11 lakh crore.

Access to credit remains a critical factor for the growth and sustainability of MSMEs. The government is taking various steps to address this credit gap, which was estimated to be USD 400 billion. Initiatives like increasing budgetary outlay to the tune of ₹23,168.15 crores towards the ministry of MSME and introducing the Unified Lending Interface (ULI) to digitise the underwriting of MSME Loans show the government's commitment to the sector.

NBFCs have emerged as key MSME lenders, outpacing private banks (20.9%) and public banks (10.4%) in growth, according to CareEdge Ratings. MSME AUM for NBFCs is expected to cross ₹5.3 lakh crore by FY26.

Despite the positive trajectory, MSMEs face challenges such as limited access to formal credit, infrastructural constraints, and the need for technological upgradation. Bridging the credit gap requires concerted efforts from financial institutions, policymakers, and stakeholders to create an enabling environment that fosters innovation, enhances competitiveness, and promotes sustainable growth within the MSME sector.

Company Overview:

SBFC Finance Limited is a systemically important non-deposit-taking, non-banking financial company (NBFC) registered with the Reserve Bank of India (RBI), headquartered in Mumbai, Maharashtra. We are classified under the Middle Layer according to RBI's Master Direction – Non-Banking Financial Company – Scale-Based Regulation Directions, 2023. Established in 2008, we primarily provide financial services to micro, small, and medium enterprises (MSMEs) and individual customers whom traditional banking institutions underserve. SBFC's product portfolio includes secured MSME Loans and Loans Against Gold. The company has developed a 'PhyGital' model that combines digital technology with personalised in-person service, enabling efficient and customer-centric lending solutions.

In FY2025, we embarked on a transformative journey, driven by our commitment to empowering Micro, Small, and Medium Enterprises (MSMEs) across India. We have sharpened our strategic focus, expanding our presence to 205 branches across 16 states and two Union Territories. This growth allowed us to reach underbanked populations in Tier II and Tier III cities, placing financial inclusion at the forefront. By serving over 100,000+ customers, we delivered essential financial solutions tailored to the aspirations of India's entrepreneurial spirit.

We enhanced customer experiences, improved operational efficiencies, and strengthened risk management frameworks. This year has been meticulously executed at SBFC, focusing on last-mile reach and deeper market penetration. We have made significant strides in refining our processes, synergising efforts, and maximising the value of our achievements.

In addition to our lending services, we have expanded our offerings by obtaining a Corporate Agent (Composite) License from the Insurance Regulatory.

Business Overview:

MSME Loans

We support India's micro, small, and medium enterprises (MSMEs) by providing accessible, tailored financing solutions. As of March 31, 2025, we operate across 16 states and two union territories through our growing network of 205 branches, strategically positioned in underbanked tier II and tier III cities. This extensive reach enables us to serve the financial needs of small enterprises in regions where formal credit remains limited.

Our key strength in the MSME lending strategy is our focus on maintaining a well-diversified loan portfolio. Our Asset Under Management (AUM) is carefully distributed across states, ensuring low concentration risk and enhancing the overall stability of our loan book. This approach has enabled us to scale our operations while safeguarding asset quality.

We primarily cater to small enterprise borrowers with a strong repayment history, typically maintaining a CIBIL score of over 700 at origination. Our direct engagement model—driven by a dedicated sales force and local branch-led marketing—fosters lasting customer relationships, enhancing satisfaction and loyalty. This high-touch approach ensures borrowers receive personalised service, strengthening our position as a trusted financial partner.

A robust risk management framework underpins our lending operations. Comprehensive underwriting processes, rigorous customer assessments, and continuous portfolio monitoring contribute to maintaining a healthy loan book. As of March 31, 2025, the company's Gross Non-Performing Assets (GNPA) stand at 2.74%, reflecting its commitment to asset quality while expanding its lending portfolio.

The MSME loan segment has experienced significant growth over the past year. The Assets Under Management (AUM) for MSME loans reached ₹72,494 million, marking an

increase of 27% and accounting for 83% of SBFC's total AUM of ₹87,474 million. This growth highlights our continued success in deepening its presence within the MSME sector while adhering to prudent lending practices.

We remain a key player in India's MSME financing landscape by leveraging our strong branch network, customer-centric strategies, and robust risk management framework. Our dedication to empowering small businesses supports local economies and contributes to India's broader goal of inclusive economic growth.

Gold Loans

We offer a comprehensive Gold Loan product, enabling clients to leverage their gold assets by securing loans against gold jewellery. Designed for simplicity and speed, the Gold Loan facility allows borrowers to avail up to 75% of the gold's value as the loan amount. Given the secured nature of these loans, the process involves minimal documentation and limited credit checks, allowing for swift transaction time and seamless customer experiences.

Our commitment to efficiency ensures that gold loan transactions are processed quickly and backed by advanced technology, skilled

personnel, and streamlined operational procedures. This enables clients to meet their urgent financial needs without unnecessary delays. The company offers diverse gold loan schemes tailored to suit customers' requirements. Borrowers can choose from flexible loan tenures and repayment schedules, empowering them to select options that best align with their financial planning.

During the fiscal year ending March 31, 2025, the Gold Loan segment recorded steady growth, with Assets Under Management (AUM) reaching ₹14,540 million, reflecting an 41% increase year-on-year. This segment now accounts for 17% of SBFC's total AUM of ₹87,474 million.

Our Gold Loan business continues to cater to a broad spectrum of customers, from small business owners to individuals seeking short-term liquidity. Our customer-centric approach and commitment to speed, transparency, and flexibility reinforce our strong position in India's competitive gold loan market. By balancing growth with prudent risk management, we ensure that our Gold Loan segment remains a key contributor to our diversified lending portfolio.

Analysis of Financial Performance:

Interest Income on loans

Our interest income on loans has increased by 35% from ₹8,661 million in FY 2024 to ₹11,674 million in FY 2025. The AUM has increased by 28% from ₹68,219 million as of March 31, 2024, to ₹87,474 million as of March 31, 2025. The growth in AUM was due to an increase in our Secured MSME lending and our Loan against Gold portfolio. We have increased our branch network from 183 to 205 in FY 2025. Our interest income other than on loans decreased from ₹522 million in FY 2024 to ₹289 million in FY 2025. The reduction is largely due to decrease in Interest on deposit with banks and Investment in Pass through certificates.

Fees and other income

Our Fees and other income increased from ₹1,015 million in FY 2024 to ₹1,097 million in FY 2025. During the current year, the Company obtained a Certificate of Registration dated November 25, 2024, from IRDAI to act as a 'Corporate Agent (Composite)' under the Insurance Act, 1938. Accordingly, the Company recognised a commission on insurance of ₹62 million.

Finance costs

Our finance costs increased by 20% from ₹3,506 million in FY 2024 to ₹4,192 million in FY 2025, primarily due to an increase in the amount of debt securities and borrowings from ₹39,960 million as of March 31, 2024, to ₹52,643 million as of March 31, 2025, to fund the growth in AUM. The debt-equity ratio has increased from 1.44 as of March 31, 2024, to 1.65 as of March 31, 2025.

Operating expenses

Our operating expenses increased by 16% from ₹3,061 million in FY 2024 to ₹3,546 million in FY 2025, primarily due to an increase in salary, wages, and depreciation.

Profit before Tax

Profit before tax is ₹4,585 million for FY 2025 compared to ₹3,161 million for FY 2024. The growth of 45% in profit before tax is achieved due to AUM growth of 28%, along with improved spread and operating leverage.

Profit after tax

Profit after tax increased by 46% from ₹2,370 million for FY 2024 to ₹3,452 million for FY 2025.

Risk Management Framework

We have established a robust and dynamic Enterprise Risk Management (ERM) framework that integrates risk management into our strategic planning, operations, and decision-making processes. This framework identifies, assesses, monitors, and mitigates organisational risks, ensuring the company's resilience and stability in a dynamic financial landscape. Our Risk management practices involve regulatory compliance, market intelligence, technological integration, and a strong risk-aware culture.

The Board of Directors oversees our risk management framework, which is supported by various committees, including the Risk Management Committee, Audit Committee, and Asset-Liability Committee (ALCO). These committees are pivotal in establishing policies, setting risk appetite, and monitoring the company's overall risk profile. Senior management ensures that risk management practices are effectively implemented at all levels.

Credit Risk

Given our core lending operations for MSMEs and Gold Loan customers, we meticulously screen our prospective clients through rigorous underwriting policies. The company employs a comprehensive credit risk assessment process that includes:

Rigorous Underwriting:

Advanced analytics and technology-driven credit-scoring models help assess borrower profiles and reduce default risks.

Impairment Assessment:

The company follows a three-stage model for Expected Credit Loss (ECL) assessment—Stage 1 (standard), Stage 2 (increased risk), and Stage 3 (credit impaired)—ensuring early identification and proactive management of credit risks.

Collateral Management:

Strict adherence to RBI's Loan-to-Value (LTV) norms and regular collateral value monitoring enhances asset security, especially for Gold Loans.

Liquidity and ALM Risk

Liquidity risk is managed through a robust Asset-Liability Management (ALM) framework to maintain adequate liquidity buffers and diversified funding sources. Key practices include:

Regular Cash Flow Monitoring:

Daily tracking of inflows and outflows ensures timely identification of liquidity gaps.

Maintaining Liquidity Coverage Ratio (LCR):

In line with RBI guidelines, we maintain an adequate LCR to withstand short-term liquidity disruptions.

Stress Testing:

Scenario analysis and stress testing are conducted periodically to assess liquidity resilience under adverse market conditions.

The Board of Directors oversees SBFC's risk management framework, which is supported by various committees, including the Risk Management Committee, Audit Committee, and Asset-Liability Committee (ALCO).

Operational Risk

Operational risk arises from potential failures in internal processes, systems or human errors. We mitigate these risks through:

Stringent Internal Controls:

Well-defined Standard Operating Procedures (SOPs) and control mechanisms reduce process inefficiencies.

Fraud Prevention:

The company has a firm whistleblower policy and a risk-based internal audit framework to detect and prevent fraudulent activities.

Business Continuity Planning (BCP):

Contingency plans and disaster recovery protocols ensure operational continuity during unforeseen disruptions.

Information Technology Risk

With the growing reliance on digital platforms, we place high emphasis on data security and cybersecurity:

ISO 27001 Certification:
Achieved to reinforce data security practices and regulatory compliance.

Advanced Cybersecurity Measures:
Endpoint detection, real-time threat monitoring, and multi-layered security protocols safeguard the IT infrastructure.

eKYC Implementation:
Leveraging biometric-based verification has streamlined customer onboarding while ensuring compliance with regulatory norms.

Environmental, Social, and Governance (ESG) Risk

Recognising the growing importance of sustainable business practices, we integrate ESG considerations into our risk framework:

Environmental Risk Assessment:
Evaluating the impact of operations on the environment and integrating sustainability into lending decisions.

Social Responsibility:
Promoting financial inclusion by supporting underserved communities, particularly MSMEs in tier II and III cities.

Governance:
Strong emphasis on ethical practices and transparent reporting to stakeholders.

Compliance and Reputational Risk

The company maintains stringent compliance protocols to adhere to all regulatory guidelines:

Dedicated Compliance Teams:
Ensuring timely adherence to RBI regulations, SEBI guidelines, and other statutory requirements.

Ethics and Governance:
Strong governance policies and a well-defined code of conduct safeguard the company's reputation.

Continuous Monitoring and Evolution

Our risk management framework is dynamic and continuously evolving in response to market trends, regulatory changes, and emerging risks. Future enhancements focus on:

Advanced Predictive Analytics:
To further refine credit risk assessment and portfolio monitoring.

Climate Risk Integration:
Assessing environmental impacts on loan portfolios, particularly in agriculture and MSME sectors.

Enhanced Cybersecurity Investments:
Staying ahead of evolving cyber threats with next-gen security tools.

Through our comprehensive risk management framework, we remain committed to maintaining financial stability, safeguarding stakeholder interests, and supporting our long-term growth objectives in an ever-evolving financial landscape.

Fraud Monitoring and Control

We maintain a robust and proactive Fraud Monitoring and Control framework to safeguard our operations' integrity and ensure adherence to regulatory standards. The company employs a comprehensive whistleblower policy, encouraging employees and stakeholders to report any suspected fraudulent activities confidentially and without fear of retaliation. This policy is vital in fostering a culture of transparency and accountability.

Fraud investigations are meticulously carried out to identify root causes and systemic vulnerabilities, enabling corrective actions to prevent such incidents' recurrence. We have established dedicated Fraud Prevention Committees, comprising members from senior management and the Board of Directors, who regularly review significant fraud cases. These committees analyse trends, strengthen internal controls, and formulate strategic responses to mitigate potential risks.

The Internal Audit team is critical in the company's fraud prevention efforts. Under a risk-based audit program, the team conducts periodic audits to detect irregularities, evaluate control effectiveness, and ensure compliance with internal policies and regulatory requirements. Audit findings related to fraud or potential risks are promptly reported to the Board and senior management, ensuring that corrective and preventive measures are implemented immediately.

In addition to conventional monitoring practices, we leverage technology-driven tools to enhance fraud detection capabilities. Advanced analytics and real-time monitoring systems enable the early identification of suspicious activities, allowing for swift intervention. Regular employee training programs on fraud awareness strengthen the organisation's ability to prevent and detect fraudulent actions.

Information Technology

In FY 2025, we strengthened our technology-driven operations, recognising Information Technology (IT) as a strategic enabler of business growth, operational efficiency, and superior customer service. At the core of our success lies our "phygital" approach, integrating digital platforms with personalised customer interactions, enabling seamless loan origination, underwriting, collections, risk management, and audits.

Our IT infrastructure has been pivotal in streamlining key processes, driving operational efficiency, and enhancing decision-making. Investments were made in upgrading core systems, expanding data storage, improving disaster recovery protocols, and ensuring business continuity and data integrity. SBFC's proprietary Loan Origination System (LOS), integrated with advanced analytics, has further reduced turnaround times, enabling faster loan approvals while maintaining regulatory compliance.

Cybersecurity remained a top priority throughout the year. We successfully maintained ISO 27001 certification, reaffirming our commitment to global best practices in information security management. We strengthened our Endpoint Detection and Response (EDR) systems, upgraded data encryption protocols, and integrated Security Information and Event Management (SIEM) tools for real-time threat monitoring. Continuous security assessments and compliance reviews fortified our cybersecurity posture against evolving threats.

SBFC's success is driven by its "phygital" approach, blending digital platforms with personalised interactions for seamless loan processing and risk management.

We implemented eKYC across branches to advance our digital transformation journey, leveraging Aadhaar-based biometric verification for seamless and compliant customer onboarding. We also launched several innovations to enhance user experience. Mobile-friendly loan application platforms improved Customer Relationship Management (CRM) systems, and self-service portals now offer customers greater control and convenience in managing our loans. These initiatives have significantly improved customer engagement and satisfaction.

Our focus on emerging technologies remains strong. We have advanced our cloud migration strategy, improving system scalability and data security while optimising operational costs. Adopting agile methodologies across IT operations has enabled us to adapt quickly to market changes and evolving customer needs. This agile approach has supported the rapid rollout of new features and strengthened the company's ability to stay ahead in a competitive market.

Internal Control System, Adequacy and Compliance

We maintain a robust and adaptive Internal Control System, ensuring operational efficiency, regulatory compliance, and the integrity of our financial reporting. The framework aligns with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI), ensuring adherence to best practices.

The control system spans all key business processes, including loan origination, credit underwriting, collections, risk management, and financial reporting. Designed to safeguard assets and ensure data accuracy, these controls promote operational transparency and protect against errors and fraud.

these controls. Regular audits focus on high-risk areas, while data analytics and automation have strengthened real-time monitoring and reporting capabilities. Audit findings are reviewed by senior management and the Audit Committee to ensure timely corrective actions and continuous process improvements.

Our compliance framework ensures alignment with all regulatory requirements set by the Reserve Bank of India (RBI), SEBI, and other authorities. We have strengthened our AML and KYC protocols, enhanced cybersecurity measures, and maintained rigorous compliance audits.

The Audit Committee oversees the adequacy of controls, regularly

reviewing audit outcomes, risk management strategies, and regulatory compliance. We remain committed to continuous improvement, integrating emerging technologies and governance enhancements to strengthen our control environment and safeguard stakeholder interests.

Human Resources and Industrial Relations

In FY 2025, we continued to foster a dynamic, inclusive, and employee-centric work environment. Our human resources strategies empower employees, promote diversity, and create a workplace culture that thrives on integrity, agility, and continuous growth. A motivated and engaged workforce is central to driving innovation and achieving business excellence. Throughout the year, we expanded our workforce by adding 536 employees, raising our total from 3,758 in FY 2024 to 4,294 in FY 2025.

Driving Inclusiveness and Employee Empowerment

Our emphasis on diversity and inclusion continues to be the cornerstone of our people strategy. Our 'Gender Diversity' initiative has seen considerable progress, with more women leaders taking on key department roles. Targeted leadership development programs, mentorship opportunities, and skill enhancement workshops have nurtured talent and ensured equal growth opportunities for all employees. We also introduced cross-functional leadership programs to empower employees to take on broader responsibilities and contribute meaningfully to the organisation's growth.

Enhancing Work-Life Balance

At SBFC, we have continued to prioritise employee well-being, fostering a workplace that balances professional growth with personal wellness. This year saw the continuation of regular health camps, team sports events, and

cultural celebrations, all designed to strengthen team spirit and promote holistic well-being. Initiatives such as mental health awareness programs, wellness webinars, and community engagement activities have been crucial in supporting employees' physical and emotional health.

We Care – Corporate Social Responsibility

Our 'We Care' initiative remains at the forefront of our commitment to social responsibility. The flagship SBFC Gurukul program, under the National Apprenticeship Promotion Scheme, has expanded our reach, offering skill development opportunities to more youth, especially from underprivileged backgrounds. This program equips participants with valuable skills and fosters pathways to employment within SBFC and beyond. Additionally,

our community outreach extended to local education projects, where we continued our efforts to improve school infrastructure and support inclusive education initiatives.

Looking Ahead

As we look forward to the coming year, we remain dedicated to strengthening our HR practices and community engagement programs. We will focus on integrating digital tools into HR processes, enhancing employee engagement platforms, and creating more personalised learning and development opportunities. We aim to expand our diversity and inclusion programs further and broaden the scope of our community initiatives, ensuring that SBFC continues to be a workplace that supports individual growth and societal advancement.

Annexure - VI
Corporate Governance Report

Corporate governance at SBFC Finance Limited ('Company') embodies best practices, legal compliance and ethical standards crucial for our sustainability. We prioritize transparency, accountability and effective oversight to foster a corporate culture that supports our stakeholders' interests. Our framework ensures robust checks and balances among the board, committees, management, auditors and stakeholders, reflecting our commitment to governance excellence and responsible business operations. This Corporate Governance Report for the financial year ended on March 31, 2025, has been prepared in compliance with the requirements of Regulation 34(3) read together with Para C of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, from time to time, ("SEBI Listing Regulations") and forms a part of the Directors Report of the Company for the aforesaid financial year. The Company has adhered to the requirements stipulated under Regulations 17 to 27 read with Para C and D of Schedule V and clauses (b) to (i) and (t) of Regulation 46(2) of the SEBI Listing Regulations as applicable with regard to Corporate Governance.

1. Company's philosophy on Corporate Governance

Corporate Governance refers to, but is not limited to, a set of laws, regulations and good practices and systems that enable an organisation to perform efficiently and ethically to generate long-term wealth and create value for all its stakeholders. Sound governance practices and responsible corporate behaviour contribute to the superior long-term performance of organisations. Corporate Governance requires everyone to raise their level of competency and capability to meet the expectations in managing the enterprise and its resources optimally with prudent ethical standards. The Company recognises that good corporate governance is a continuous exercise. Adherence to transparency, accountability, fairness and ethical standards are an integral part of the Company's function.

The Company's structure, business dealings, administration and disclosure practices are aligned to good corporate governance philosophy and to add value to customers' businesses by providing financial services that allow them to increase the efficiency, quality and profitability of their operations while upholding the Company's core values, courage, ownership, respect and energy and include the values of creativity, co-operation,

reliability, integrity, embracing diversity and compliance with the laws. The Company has an adequate system of control in place to ensure that the executive decisions taken should result in optimum growth and development which benefits all the stakeholders and aims to increase and sustain its corporate values through growth and innovation. The Company's Code of Conduct serves as a guide to each Director and employee on the standards and values, ethics and business principles which govern their conduct. The Company's policy on internal controls requires a periodical review of all controls including financial, operational, compliance and risk management.

The Company ensures strict adherence to all applicable regulatory frameworks, including the Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 ("RBI Master Directions"), the Companies Act, 2013 ("the Act"), and the SEBI Listing Regulations. It also remains compliant with relevant rules, regulations, circulars, and notifications issued by the Reserve Bank of India (RBI), Securities and Exchange Board of India (SEBI), Ministry of Corporate Affairs (MCA), Insurance Regulatory and Development Authority of India (IRDAI) and other concerned statutory authorities.

2. Board of Directors

The Board of Directors, in its fiduciary role, is responsible for safeguarding the Company's interests and creating long-term stakeholder value. It upholds the principles of ethical governance, transparency, and accountability, supported by a balanced mix of independent and non-independent directors. The Board promotes diversity and inclusion, bringing varied perspectives to enhance decision-making and corporate culture. Board Training and Familiarisation Programme

In terms of Regulation 25(7) of the SEBI Listing Regulations, the Company is required to conduct various programmes for the Independent Directors of the Company to familiarise them with their roles, rights, responsibilities in the Company, nature of the industry in which the Company operates, the business model of the Company, etc.

The Company regularly familiarises its Board, including Independent Directors, with key aspects of its business and financial strategy, risk management practices, regulatory updates and governance framework. During

the year, familiarisation was conducted through Board and Committee meetings covering business and financial performance, audit presentations, risk identification and mitigation, and IT strategy including cybersecurity and digital initiatives. Directors were also updated on liquidity and asset-liability management, regulatory inspections and CSR activities. Discussions included internal controls, related party transactions, policy reviews and compliance with SEBI Listing Regulations and Insider Trading Regulations. Independent Directors are made aware of their roles and responsibilities at the time of appointment through a formal letter outlining the terms of engagement.

Details of familiarisation programmes imparted to Independent Directors is disclosed on its website at <https://www.sbfc.com/investors>.

Independent Directors' Separate Meeting

The SEBI Listing Regulations and Schedule IV to the Act mandate the Independent Directors of the Company to hold at least one meeting in every financial year, without the attendance of non-independent directors and members of the management. During the financial year ended on March 31, 2025, the Independent Directors met on March 15, 2025, inter alia, to review the performance of Non-Independent Directors and the Board as a whole, to review the performance of the Chairperson of the Company and to assess the quality, quantity and timeliness of flow of information between the management of the Company and the Board and, as intimated, were found satisfactory.

Re-appointment of Directors

As required under Regulation 36(3) of the SEBI Listing Regulations and Secretarial Standard - 2 on General Meetings issued by the Institute of Company Secretaries of India, particulars of the Directors seeking re-appointment are given in the Notice of the 18th AGM of the Company which forms part of the Annual Report.

Code of Conduct

In terms of Regulation 17(5) and 26(3) of the SEBI Listing Regulations, the Board has laid down Codes of Conduct for Board Members and for Senior Management of the Company ("Codes"). The Board has also adopted a Code of Conduct for Independent Directors in line with Section 149(8) read with Schedule IV of the Companies Act, 2013. This serves as a guide to professional conduct, outlining the role, duties, and responsibilities expected from Independent Directors to uphold high standards of integrity and governance within the Company.

This Code of Conduct emphasises the Company's commitment to compliance with the highest standards of legal and ethical behaviour. The Code of Conduct is available on the website of the Company at <https://www.sbfc.com/faq>. All Board Members and Senior Management Personnel have confirmed their adherence to the Company's Codes of Conduct. The declaration to this effect signed by Mr. Aseem Dhru, Managing Director & CEO, is attached separately with this report.

- (g) **Subsidiary of the Company:**

During FY 2025, SBFC Home Finance Private Limited ('SBFC Home Finance') the Company's wholly-owned subsidiary had made an application to Reserve Bank of India (RBI) for obtaining

a Certificate of Registration for operating as a 'Housing Finance Company'. RBI had not considered the said application, as SBFC Home Finance is a subsidiary of a registered NBFC-ICC, leading to layering of NBFCs. Since the intended objective behind the incorporation of SBFC Home Finance was not achieved, SBFC Home Finance, decided to pursue the process of Voluntary Liquidation. The shareholders of SBFC Home Finance at their meeting held on January 27, 2025 had approved the voluntary liquidation process. The liquidator has completed the process of realization of assets and liabilities of SBFC Home Finance. Consequently, the net proceeds of the realization have been distributed to your Company on March 27, 2025.

The subsidiary had not commenced any business or conducted any operations since the date of its incorporation. Further, SBFC Home Finance is not a material subsidiary of the Company.

In terms of the provisions of Section 129(3) of the Act, the Consolidated Financial Statements of the Company and its subsidiary, SBFC Home Finance, are prepared and form part of this Annual Report.

During the FY 2024-25, there was no other entity which became or ceased to be joint venture or associate of the Company.

No loan / advance was given by the Company to any firms / companies in which directors are interested.

Details of material subsidiaries of the listed entity, including the date and place of incorporation and the name and date of appointment of statutory auditors of such subsidiaries – The Company does not have any material subsidiary.

The Company has framed 'Policy on determination of Material Subsidiary' which is made available on the website of the Company at www.sbfc.com/faq.

During the financial year 2024-25, the Company did not have any material subsidiary companies, hence the provisions of SEBI Listing Regulations with respect to appointment of atleast one Independent Director of the Company on the Board of unlisted material subsidiaries, are not applicable to the Company.

The minutes of the subsidiary company were placed before the Board of Directors of the Company on a quarterly basis and the attention of the Directors is drawn to significant transactions and arrangements entered into by the subsidiary company, if any.

The Company is compliant with other requirements under Regulation 24 of the SEBI Listing Regulations with regard to its subsidiary companies.

- (h) Further, the Company has adequate internal control systems to identify risks at the appropriate time and to ensure that the management controls the risk through a properly defined framework.

1 ¹	Sustainable Finance	O	Financing has an important role to play in enabling businesses and economies to transition to a sustainable economy. The MSME sector in India is one of the key drivers of the economy and significantly contributes to the country's GDP as well as employment. As a financial services company, we recognize that directing capital towards such enterprises presents a substantial opportunity for us to make a meaningful impact. We firmly believe that achieving financial success should be intricately linked with our contribution to the greater good of society.	Being an NBFC, focusing on providing loans to businesses and individuals in the MSME sector that are underserved, we are addressing a major financing gap, thus, enables such businesses and entrepreneurs obtain loans to scale up their operations, improve efficiency or for other business expansion related purposes. Our efforts involve placing a heightened focus on providing loans to entrepreneurs and small businesses with a focus on sustainability and inclusive growth.	Sustainable finance offers positive financial benefits to SBFC by enhancing risk management, improving access to capital, and driving long-term value creation through responsible and resilient business practices 1. Attracting Impact Investors: Sustainable finance initiatives often attract, impact investors and institutions focused on impactful investments. By aligning with sustainability goals, we may gain access to a new source of funding and partnerships with organizations that are keen on supporting socially responsible initiatives. 2. Risk Mitigation: Assessing and promoting sustainability in lending can help identify risks and opportunities more effectively. It can lead to better risk management by avoiding industries or projects with high risks, reducing the likelihood of loan defaults and losses 3. Improved Reputation: Incorporating sustainability into your business model can enhance your brand image and reputation. Customers, especially those from younger generations, are increasingly choosing businesses that align with their values, including environmental and social responsibility.

2	Climate Change	R	We recognize that climate change, poses a risk to our operations, our clients, and the broader economy.	We are committed to addressing climate change risks through proactive measures. We are primarily into mortgage loan and we have created policy around excluded activities. We exclude funding of loan in production of, or trade in, any product or activity deemed illegal under applicable local or national laws or regulations or subject to internationally agreed phase- outs or bans as defined in global conventions and agreements.	Financial Implications (Negative): We acknowledge that climate change related risks may have adverse financial implications for SBFC Finance Limited. These risks include the potential for increased loan defaults, reduced asset values, and losses on investments in sectors vulnerable to climate impacts, such as fossil fuels and agriculture.

3	Financial Inclusion and Capacity Building	O	MSMEs contribute significantly to India's growth story by making up a substantial portion of the country's GDP as well as employment. However, they do not have required access to formal credit or lending. As a result, financing becomes a major obstacle for such entrepreneurs and business owners as traditional banks do not provide financing tailored to their requirements. At SBFC, we aim to fill this gap by providing financing opportunities to business owners who are underserved and further unlocking India's growth story. We are also deeply associated with uplifting other marginalized groups of the society including women, rural and local borrowers, people in old age etc., ensuring overall inclusion.	As an NBFC engaged in providing loans to small businesses and entrepreneurs in the MSME sector, women, and other marginalized groups, our business model aligns with key principles of financial inclusion. Some of our current approaches to capture the opportunity include, 1. Partnerships: Collaborating with government agencies, non- governmental organizations, and other stakeholders to promote financial inclusion and address challenges effectively. Through partnerships, we can leverage expertise, resources, and networks to scale our impact. 2. Data and Analytics: Leveraging data and analytics to identify regions and communities that have limited access to financial services. This data-driven approach will enable us to prioritize our efforts and allocate resources where they are most needed. 3. Ethical Selling and Responsible Marketing: Ensuring the highest quality of ethics during sale of our products. Through our training programs we ensure that all the product related terms and conditions are appropriately explained to the customer during the loan process. In case of grievances or complaints, the customer can raise their grievance to us through multiple channels at their disposal.	Embracing financial inclusion and capacity building as an opportunity can lead to several positive financial implications: 1. Market Expansion: Reaching previously underserved markets can expand our customer base and unlock new business opportunities. 2. Customer Loyalty and Retention: Providing tailored financial solutions can foster customer loyalty and retention, enhancing long-term profitability. 3. Reputation and Branding: Demonstrating our commitment to financial inclusion aligns with evolving consumer preferences and enhances our reputation as a socially responsible financial institution, attracting ethically minded customers and investors.

4	Employee Health and Well-being	O	At SBFC, we recognize that the health and well-being of our employees are paramount to the success and sustainability of our organization. Emphasizing employee health and well-being presents a significant opportunity to create a positive and productive work environment while fostering a culture of care and support.	To prioritize employee health and well-being, we have developed a comprehensive approach that demonstrates our commitment to our most valuable asset - our employees: 1. Health Benefits and Insurance: Providing robust health benefits and insurance coverage to ensure that our employees have access to quality medical care and support in times of need. 2. Workplace Safety: Ensuring a safe and secure work environment by adhering to rigorous safety standards and promoting a culture of safety awareness among employees. 3. Flexible Work Arrangements: Offering flexible work arrangements, such as remote work options or flexible hours, to accommodate the diverse needs and responsibilities of our employees.	Financial Implications (Positive): Prioritizing employee health and well-being can lead to several positive financial implications 1. Increased Productivity: Healthy and engaged employees tend to be more productive, resulting in improved operational efficiency and enhanced customer service. 2. Reduced Absenteeism and Turnover: By investing in employee well-being, we can potentially reduce absenteeism and turnover, leading to cost savings associated with recruitment and training. 3. Enhanced Employee Engagement: A focus on health and well-being fosters a positive work culture, leading to higher employee satisfaction and increased loyalty to the organization. 4. Attracting Talent: Demonstrating our commitment to employee health and well-being makes us an attractive employer, helping us attract and retain top talent in the industry.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	Incase of Risk, Approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Customer Experience	O	Customer experience is a significant opportunity to enhance our competitiveness and build lasting relationships with our clients. By delivering exceptional services and products, we can increase customer satisfaction, retention, and loyalty.	To maximize the opportunity of customer experience, we have adopted the following approach: Digital Innovation: Embracing digitalization and leveraging innovative technologies through our "PhyGital" model which uses technology and authentic in-person service to create loans which support the ambitions of our customers. We engage directly with small business owners and work through loan applications together, in person, at the customer's pace. Grievance Redressal Mechanisms: We have a dedicated grievance redressal mechanism to promptly address customer related complaints and grievances through multiple channels. Each complaint is thoroughly reviewed, monitored, and resolved to achieve complete customer satisfaction. To bolster our support, a dedicated Grievance Redressal Officer is appointed and prominently displayed in all our branches. Continuous Improvement: Continuously reviewing and upgrading our processes and systems to stay ahead in the dynamic financial landscape and provide the best possible experience to our customers.	Financial Implications (Positive): Improving customer experience can lead to several positive financial implications, such as: Customer Loyalty: Satisfied customers are more likely to remain loyal and utilize a broader range of our services, increasing customer retention and lifetime value. Word-of-Mouth Referrals: Delighted customers are more inclined to refer friends and family to our services, expanding our customer base through word-of-mouth referrals. Competitive Advantage: By providing superior customer experience, we can differentiate ourselves from competitors and attract new customers seeking exceptional financial services.

6	Diversity and Inclusion	O	Diversity and inclusion are a tremendous opportunity for us to foster a culture of innovation, creativity, and equality within our organization. Embracing diversity can help us tap into a broader talent pool and enhance decision-making processes.	To leverage the opportunity of diversity and inclusion, we have implemented the following approach: Diverse Hiring Practices: Promoting a diverse and inclusive workforce by adopting fair and unbiased hiring practices that attract talent from various backgrounds. Inclusive Workplace: Creating an inclusive workplace where all employees feel valued, respected, and empowered to contribute their unique perspectives and ideas. Training and Development: Providing training and development opportunities that foster cultural awareness, sensitivity, and understanding among employees. Human Rights: Factoring in Human Rights considerations in our HR policies. Fair Wage: Compliant with minimum wage requirements to ensure that our employees are appropriately compensated. Grievance redressal mechanism: Implementing a mechanism for employees to report and seek resolution for their grievances.	Financial Implications (Positive): Embracing diversity and inclusion can lead to several positive financial implications including: Increased Innovation: A diverse workforce brings together varied perspectives, driving innovation and creativity, which can lead to the development of innovative financial products and services. Enhanced Employee Productivity: Inclusive workplaces tend to have higher employee satisfaction and productivity, contributing to overall organizational efficiency and effectiveness. Talent Attraction and Retention: Demonstrating a commitment to diversity and inclusion can attract top talent and reduce employee turnover, resulting in cost savings associated with recruitment and training.

7	Data privacy and Cyber security	R	Data privacy and cybersecurity is a significant risk for us due to the potential financial and reputational consequences of data breaches. In the event of a security breach, sensitive customer information could be exposed, leading to regulatory fines, legal liabilities, loss of customer trust, and damage to the company's brand image. Ensuring robust data protection measures is essential to safeguard the interests of both the institution and its customers.	We have a well-defined framework and policy on cyber security and data privacy. This policy assures users that all personal information provided through the website is treated with the utmost confidentiality and is not shared with third parties in most circumstances, unless explicitly solicited and permitted by the user. In alignment with our commitment to providing safe and secure banking services, we have a defined cyber security and data privacy policy for client data protection. Our Phygital Model blends technology with human touch, allowing us to understand and underwrite credit for our valued customers effectively.	Financial Implications (Negative): Data privacy and cybersecurity risks can have several adverse financial implications for us at SBFC. Some of these implications include, but not limited to, Reputation Damage: A data breach or cybersecurity incident can severely impact our reputation, leading to a loss of customer trust and potential business opportunities Financial Losses: Cyberattacks may result in financial losses, such as regulatory fines, legal costs, and compensating affected customers for any damages incurred.

8	Economic Performance	O	For SBFC, strong economic performance opens doors to greater access to funding sources, enabling them to expand their lending capabilities and reach a wider customer base. It enhance ability to offer competitive interest rates and attractive financial products, further attracting potential borrowers and investors alike. Additionally, a solid financial track record builds trust and credibility in the eyes of regulatory authorities and customers, fostering long-term relationships and ensuring sustained profitability for the organization.	To leverage the opportunity of economic performance, we have developed the following approach: 1. Financial Strength: We have the capital to grow with confidence and are backed by investors. 2. Skilled workforce: We have a hand-picked team of people with diverse skills, relevant experience and a passion for customer service. 3. Risk Management: We have implemented effective risk management practices to identify and mitigate potential financial risks that could impact our economic performance. 4. Analytics: We optimize business processes and customer service using advanced data analysis. 5. Innovation and Technology: We use smart technology to enhance efficiency and make the customer journey easier. 6. Responsible Investments: Making responsible and sustainable investments that align with our values and contribute to long-term economic growth.	Financial Implications (Positive): Maintaining strong economic performance can lead to several positive financial implications for us. Some of these key implications include, 1. Investor Confidence: A strong financial performance can enhance investor confidence and attract new investors seeking profitable opportunities. 2. Competitive Advantage: A robust economic performance positions us favorably among competitors and strengthens our position in the financial market. 3. Capital Access: Improved economic performance enhances our ability to access capital for expansion and strategic investments.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	Incase of Risk, Approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
9	Business Ethics and Governance	R/ O	At SBFC, we recognize that having strong Business Ethics and Governance present significant opportunities for us to establish ourselves as responsible and trustworthy organization in the financial industry. This is particularly crucial considering the inherent risks associated with the financial sector, and the need to safeguard the interests of customers, investors, and stakeholders. The evolving financial regulatory landscape places greater emphasis on ethical conduct, transparent disclosures, customer protection, and responsible lending practices.	By adhering to strong ethical practices and adopting robust governance mechanisms, we seek to enhance our reputation in the market. Trust is a vital asset in the financial sector, and customers are more likely to engage with an organization that prioritizes ethics and governance. We have a strong Code of Conduct at place along with other policies to ensure that ethical practices are upheld at all times and throughout the hierarchy of our operational system. At SBFC, we have developed robust governance frameworks, ethical business practices, and proactive compliance management systems that position us to mitigate regulatory risks while capitalizing on emerging opportunities such as faster approvals, preferential partnerships, and enhanced investor confidence.	Financial Implications (Positive)- Ethical behavior improves the reputation of the company, attracting more customers, thereby increasing revenue. It may also help to attract more investments and capital. Compliance with ethical standards reduces legal and regulatory expenses and also facilitate easier access to capital markets for further growth. Regulatory Sanctions (Negative): Failure to adhere to these ethical and governance standards exposes SBFC to regulatory sanctions, reputational damage, and financial penalties.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	Incase of Risk, Approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
10	Risk Management	R/ O	Risk Management presents a significant opportunity for SBFC since it helps us to enhance our stability, resilience, and sustainable growth. As we operate in an inherently risk-prone financial environment, effective risk management strategies help us minimize our losses, maintain regulatory compliance, and enhance investor confidence which in turn helps us in optimizing our capital allocations, thus maximizing returns on investments.	We have a highly comprehensive risk management strategy that helps us to navigate uncertainties and achieve long term success in our business. We have identified potential sources of risks specific to our business model, operations and industry and accordingly we have implemented risk mitigation strategies and controls to reduce the likelihood and impact of the identified risks. We have also established a robust system to continuously monitor risks and ensure the proper approach towards mitigation of the risks.	Financial Implications (Positive)- A comprehensive risk management strategy will positively impact our financial performance by reducing losses, enhancing profitability, optimizing capital allocation, improving creditworthiness, ensuring compliance, attracting investments, and fostering customer trust. Proactive management of risks reduces the likelihood and severity of financial losses and avoid potential expenses associated with managing and recovering from risk related incidents. It positions the company as a stable and reliable financial institution, supporting sustainable growth and success in the competitive financial industry.

LEADERSHIP INDICATORS

1. Provide the processes for consultation between stakeholders and the board on economic, environmental, and social topics or if consultation is delegated, how feedback from such consultations is provided to the board.

We have conducted a materiality assessment to determine key factors that affect the Society, Environment, and our business at large. These material factors have been communicated to the board, and we are in the process of deriving management solutions to ensure that such stakeholder feedback is incorporated into crucial business decisions for further improvement and value creation for all.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the input received from stakeholders on these topics were incorporated into the policies and activities of the entity.

We have conducted a Materiality Assessment to identify the environmental, social, and economic concerns that affect our stakeholders, society, environment and our business at large. This effort is to further our commitment to continuously enhancing existing processes and systems. As per the feedback received, we have already initiated development and enhancement of existing company policies and addressing key stakeholder needs by formulating initiatives and management solutions. Examples include our Environmental, Social, and Governance (ESG) policy that outlines our commitment to environmentally responsible practices, social welfare, robust governance, and stakeholder engagement. It guides our decisions, promotes sustainable value creation, and ensures ethical conduct, transparency, and accountability across our operations.

3. Provide details of instances of engagement with, and actions are taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

We have implemented a formal grievance mechanism for our customers to raise their concerns. Our multi-channel grievance redressal mechanism is designed to address all customer-related issues. Additionally, community members can raise grievances through a dedicated channel on our website. As part of our commitment to engaging with marginalized stakeholder groups, we have conducted an initiative to gather testimonials from some of our customers regarding their experiences with us. These testimonials are publicly available on our website. Moreover, it's noteworthy that in more than 90% of our loan agreements, women either serve as primary applicants or co-applicants.

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any,may be provided along-with summary)	Outcome of the initiative
1.	In strict adherence to the guidelines laid out by the Reserve Bank of India (RBI), lending companies are mandated to furnish welcome kits to their borrowers. To align with these directives and bolster sustainable practices, SBFC has transitioned to delivering digital welcome kits to all borrowers. This strategic shift has yielded twofold benefits. Firstly, it has substantially curtailed direct paper consumption, leading to reduction in our ecological footprint. Secondly, by circumventing the need for physical transit, the initiative has tangibly minimized indirect fuel consumption, contributing to a more environmentally conscious operation.		
2.	All loan documentation files stored in our warehouses were meticulously digitized and are now accessible in electronic format. This transformation has notably diminished the need for physical transportation of files across various locations, thus significantly decreasing indirect fuel consumption. Formerly, these files necessitated transport for verification, audit, and inspection purposes. As a result of this forward-looking endeavor, we have not only streamlined our operational processes but also achieved a substantial reduction in our carbon emissions footprint.

LEADERSHIP INDICATORS

1. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized/vulnerable group
- Being a NBFC, our service offerings include financial products and services to a wide range of consumers. Since such activities neither involve procurement of raw materials, nor production of tangible goods, the procurement activities associated with our operations remain low and of limited scope. However, we are committed to uphold and promote sustainability throughout our value chain, including the aspect of the materials we procure for our day-to-day functioning including administrative needs at offices and branches. Consequently, we have Sustainable Procurement Policy that reflects our commitment to incorporate sustainable practices and develop a holistic approach to address ESG risks across our value chain. For the limited procurement activities that we conduct, we ensure that they are conducted in a manner that aligns our ESG principles and objectives catering to sustainable value chains.
- (b) From which marginalized/vulnerable groups do you procure?
- While our current activities do not involve the procurement of raw materials or the production of tangible goods, our procurement activities associated with operations are currently negligible. Nevertheless, we are dedicated to a future where we actively enhance representation from diverse groups within our value chain whenever applicable.

2. Details of beneficiaries of CSR projects:

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.
- SBFC has set up a Vigil Mechanism for its employees to report their concerns or grievances. The said mechanism includes the Whistle Blower Policy and supplies adequate safeguards against victimization of persons who use it. Information about the mechanism and the channels for reporting concerns (including a third- party reporting channel) is communicated to the relevant stakeholders.
- At SBFC, our customers are paramount, and their feedback is crucial for us. We have a well-structured grievance redressal mechanism to promptly address any concerns. All disputes related to business practices, lending decisions, credit management, and recovery are diligently heard and responded to. Customers can easily reach us through several communication modes, including toll-free numbers and customer service emails. Each complaint is thoroughly reviewed, monitored, and resolved to achieve complete customer satisfaction. To bolster our support, a dedicated Grievance Redressal Officer is appointed and prominently displayed in all our branches. If needed, we have an escalation matrix, and unresolved issues can be appealed to the RBI Ombudsman, emphasizing our commitment to exemplary customer service.
- For more information, please visit our Grievance Redressal Policy available on our website through this link: <https://www.sbfc.com/cmsproject/mediaGallery/docs/Grievance%20Redressal%20Policy-1704795424.pdf?rm=1702233000>.

To the Members of SBFC Finance Limited

Report on the Audit of the
Standalone Financial Statements
Opinion

1. We have audited the accompanying standalone financial statements of **SBFC Finance Limited** ('the Company'), which comprise the Standalone Balance Sheet as at 31st March 2025, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Cash Flow and the Standalone Statement of Changes in Equity for the year then ended, and notes to the Standalone financial statements, including a summary of the material accounting policies and other explanatory information (hereinafter referred to as the 'standalone financial statement').
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, the relevant circulars, guidelines and directions issued by the Reserve Bank of India (RBI) from time to time ('RBI Guidelines') and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
These parameters are derived from the Company's internally developed statistical models and other historical data.	Assessed the critical assumptions and input data used in the estimation of expected credit loss models for specific key credit risk parameters, such as the movement logic between stages, Exposure at default (EAD), probability of default (PD) or loss given default (LGD);
On the basis of an estimate made by the management, an overlay to the tune of ₹ 46.56 millions has been carried by the Company as at 31 March 2025 on loans basis their performance and outstanding position. The basis of estimates and assumptions involved in arriving at the overlay are monitored by the Company periodically and significantly depend on future developments in the company's portfolio and the economy.	- Evaluated the reports and working for the methodology used in the computation of Through The Cycle PD, Point In Time PD and LGD, among others; - Performed test of details over calculation of ECL, in relation to the completeness and accuracy of the data;
Disclosure The disclosures regarding the Company's application of Ind AS 109 are key to explaining the key judgements and material inputs to the ECL results. Further, disclosures to be provided as per RBI circulars with regards to non-performing assets and provisions is also an area of focus.	- Obtained written representations from management and those charged with governance on whether they believe significant assumptions used in calculation of expected credit losses are reasonable; - Assessed the appropriateness and adequacy of the related presentation and disclosures of Note 48 "Financial risk management" disclosed in the accompanying financial statements in accordance with the applicable accounting standards and related RBI circulars and Resolution Framework.
Considering the significance of the above matter to the overall financial statements and extent of management's estimates and judgements involved, it required significant auditor attention. Accordingly, we have identified this as a key audit matter.	

Information other than the Financial
Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board's Report (including annexures thereto) and Management Discussion and Analysis ("MD&A") (collectively referred to as "other information") but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 (Revised) 'The Auditor's responsibilities Relating to Other Information'.

Board of Director's Responsibilities for the
Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act, RBI Guidelines and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Key Audit Matter	How our audit addressed the key audit matter
Impairment of loans and advances to customers (Refer Note 2 for material accounting policies and Note 48.1 for credit risk disclosures)	
As at 31 March 2025, the Company has reported gross loan assets of ₹ 76,416.78 million against which an impairment loss of ₹ 1,375.84 million has been recorded. The Company recognized impairment provision for loan assets based on the Expected Credit Loss ("ECL") approach laid down under 'Ind AS 109 – Financial Instruments'.	Our audit focused on assessing the appropriateness of management's judgment and estimates used in the impairment analysis through procedures that included, but were not limited to, the following: Obtained an understanding of the modelling techniques adopted by the Company including the key inputs and assumptions;
The estimation of ECL on financial instruments involves significant management judgement and estimates and the use of modelling techniques and assumptions which could have a material impact on reported profits. Significant management judgement and assumptions involved in measuring ECL is required with respect to:	- Considered the Company's accounting policies for estimation of expected credit loss on loans and assessing compliance with the policies in terms of Ind AS 109; - Assessed reasonableness of the methodology and assumption used to determine management overlays; - Tested the design and operating effectiveness of key controls over completeness and accuracy of the key inputs and assumptions considered for calculation, recording, monitoring of the impairment loss recognized and staging of assets;
- ensuring completeness and accuracy of the data used to create assumption in the model. - factoring in future economic assumptions techniques used to determine probability of default, loss given default and exposure at default.	

8. In preparing the standalone financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to standalone financial statements in place and the operating effectiveness of such controls based on our audit;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;
- Conclude on the appropriateness of Board of Directors and management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the standalone financial statements of the Company to express an opinion on the standalone financial statements.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

15. The standalone financial statements of the Company for the year ended 31 March 2024 were audited by the predecessor auditor, Suresh Surana & Associates LLP, Chartered Accountants, who have expressed an unmodified opinion on those standalone financial statements vide their audit report dated April 27, 2024. Accordingly, we do not express any opinion on the figures reported in the standalone financial statements for the year ended as at March 31, 2024.

Report on Other Legal and Regulatory Requirements

Annexure B to the Independent Auditor’s Report

Annexure B to the Independent Auditor’s Report of even date to the members of SBFC Finance Limited on the Standalone Financial Statements for the year ended 31st March 2025

Independent Auditor’s Report on the Internal Financial Controls with reference to the Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’)

(Referred to in paragraph 17(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

- 1. In conjunction with our audit of the standalone financial statements of SBFC Finance Limited (‘the Company’) as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to standalone financial statements of the Company as at that date.

Board of Director’s Responsibilities for Internal Financial Controls

- 2. The Company’s Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (‘the Guidance Note’) issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company’s business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility for the Audit of the Internal Financial Controls with Reference to Standalone Financial Statements

- 3. Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain

reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

- 6. A company’s internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

- 7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that

the degree of compliance with the policies or procedures may deteriorate.

Opinion

- 8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1. Corporate Information

SBFC Finance Limited ('the Company') is a limited company incorporated in India under the Companies Act, 1956, having its registered office at First Floor, C&B Square, Sangam Complex, Andheri Kurla Road, Chakala, Andheri (East), Mumbai- 400059, Maharashtra. The Company is registered with the Reserve Bank of India (RBI) as a Non deposit taking Non-Banking Financial Company ("NBFC") as defined under section 45-IA of the Reserve Bank of India (RBI) Act, 1934. The Company is classified under "Middle Layer" pursuant to Master Direction- Reserve Bank of India (Non-Banking Financial Company- Scale Based Regulation) Directions, 2023.

The registration details are as follows:

Reserve Bank of India Registration no : N-13.01913

Corporate Identity Number (CIN) :
L67190MH2008 PLC178270

The Company is in the business of giving loans to Micro Enterprise secured by residential or commercial property. The Company also gives Loan against Gold, which offers the Company superior yields with almost liquid security assets. The Company also gives unsecured personal loans and unsecured business loans.

The standalone financial statement for the year ended March 31, 2025 were authorised for issue in accordance with a resolution of the board of directors on April 26, 2025.

2. Material accounting policies

2.1 Basis of preparation

The standalone financial statement of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India mainly considering the Master Directions issued by the Reserve Bank of India ('RBI') as applicable to Non deposit taking Non-Banking Finance Companies. The standalone financial statement have been prepared under the historical cost convention, as modified by the application of fair value measurements required or allowed by relevant Accounting Standards. Accounting policies have been consistently applied to all periods presented, unless otherwise stated.

The preparation of standalone financial statement requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosed amount of contingent liabilities. Areas involving a higher degree of judgement or complexity, or areas where assumptions are significant to the Company are discussed in Note 2.15- Significant accounting judgements, estimates and assumptions.

The standalone financial statement are presented in Indian Rupees (₹) in Million and all values are rounded to the nearest Rupee in Ten Thousands, except when otherwise indicated.

2.2. Presentation of standalone financial statement

The standalone financial statement of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013, applicable to NBFCs as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when, there is an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event and the parties intend to settle on a net basis in the following circumstances:

- a) The normal course of business
- b) The event of default
- c) The event of insolvency or bankruptcy of the Company and/ or its counterparties

2.3. Statement of compliance

The standalone financial statement have been prepared in accordance with the Indian Accounting Standards (Ind AS) on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period as explained in the accounting policies below and the relevant provisions of the Act.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Company has adopted the amendments to Ind AS 1 for the first time in the current year as per Companies (Indian Accounting Standards) Amendment Rules, 2023 and applicable from April 1, 2023. The amendments change the requirements in Ind AS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

2.4. Financial instruments

(i) Classification of financial instruments

The Company classifies its financial assets into the following measurement categories:

- a) Financial assets to be measured at amortised cost
- b) Financial assets to be measured at fair value through other comprehensive income

Notes forming part of Standalone Financial Statements

for the year ended March 31, 2025 (*continued*)

- c) Financial assets to be measured at fair value through profit or loss account

The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets which are explained below:

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

The Solely Payments of Principal and Interest (SPPI) test

As a second step of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only

consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Company classifies its financial liabilities at amortised costs.

(ii) Financial assets measured at amortised cost

These financial assets comprise bank balances, receivables, investments and other financial assets.

These are measured at amortised cost where they have:

- contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on the principal amount outstanding; and
- are held within a business model whose objective is achieved by holding to collect contractual cash flows.

These instruments are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at amortised cost.

(iii) Items at fair value through profit or loss (FVTPL)

Items at fair value through profit or loss comprise:

- Investments (including equity shares) held for trading;
- Items specifically designated as FVTPL on initial recognition; and
- debt instruments with contractual terms that do not represent solely payments of principal and interest.

Financial instruments held at FVTPL are initially recognised at fair value, with transaction costs recognised in the standalone statement of profit and loss as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the standalone statement of profit and loss as they arise.

(iv) Debt securities and other borrowed funds

After initial measurement, debt issued, and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

(v) Reclassification

If the business model under which the Company holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply

prospectively from the first day of the first reporting period following the change in business model that result in reclassifying the Company's financial assets. Changes in contractual cash flows are considered under the accounting policy on Modification and derecognition of financial assets described below.

(vi) Recognition and Derecognition of financial assets and liabilities

Recognition:

- Loans and Advances are initially recognised when the Financial Instruments are transferred to the customers.
- Investments are initially recognised on the trade date.
- Debt securities, deposits and borrowings are initially recognised when funds reach the Company.
- Other Financial assets and liabilities are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument.

Derecognition of financial assets

- Financial assets:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, the Company has transferred its contractual rights to receive cash flows from the financial asset.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset, or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which

case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

- Financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in the standalone statement of profit and loss.

(vii) Impairment of financial assets

Overview of the ECL principles

The Company records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with financial guarantee contracts, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Company does the assessment of significant increase in credit risk at a borrower level. If a borrower has various facilities having different past due status, then the highest days past due (DPD) is considered to be applicable for all the facilities of that borrower.

Based on the above, the Company categorises its loans into Stage 1, Stage 2 and Stage 3 as described below:

Notes forming part of Standalone Financial Statements

for the year ended March 31, 2025 (continued)

Stage 1

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The Company classifies all standard advances and advances up to 0-30 days default under this category. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.

Stage 2

All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. Financial assets past due for 31-90 days are classified under this stage. The Company uses the below criteria for assessing movement to Stage 2:

- Financial assets past due between 31-90
- The Company becomes aware about any deterioration in the financial condition and reputation of the obligor which the management believes may lead to significant deterioration in credit risk

Stage 3

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. Stage 3 is considered where "Contractual payments of principal and/or interest are past due for more than 90 days".

Non performing Asset classification is done in line with Reserve Bank of India Master Circular on Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances and Clarifications dated November 12, 2021 and dated February 15, 2022.

The mechanics of ECL

The Company calculates ECLs based on probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to the Company and the cash flows that the Company expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Probability of Default (PD) – Probability of default ("PD") is defined as the likelihood of default over a particular time horizon. The PD of an obligor is a fundamental

risk parameter in credit risk analysis and depends on obligor specific as well as macroeconomic risk factors. The impact of macroeconomic criteria on the PD results in two different PD estimates, through-the-cycle ("TTC") and the point-in-time ("PIT") PD. A TTC PD estimate remains largely unaffected by the economic cycle, while a PIT PD estimate varies with the economic cycle.

Exposure at Default (EAD) – EAD is taken as the gross exposure under a facility upon default of an obligor. The amortized principal and the interest accrued is considered as EAD for the purpose of ECL computation

Loss Given Default (LGD) – The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

Reposessed assets

In Loan Against Property / Mortgage Loan, the collateral on a loan can be reposessed as part of legal process through SARFAESI, arbitration etc. In such scenario, property value assessment to be done based on existing valuation done for NPA cases or fresh valuation done post repossession of the property. Basis the assessment of the valuation, additional provision to be done to the extent of shortfall in the value of asset not covered with the existing ECL provision.

Further, property auction/sale to be conducted for such reposessed assets as per legal process and guidelines basis collection manual. Once the property is sold, based on the actual realization the ECL shortfall or surplus to be accounted for.

If any reposessed asset is not sold for 24 months post repossession, the account should be marked for accelerated provision and account should be fully provided.

(viii) Write-offs

The Company reduces the gross carrying amount of a financial asset when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. However, financial assets that are written-off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any write-offs/subsequent recoveries against such loans are debited/credited in the Statement of Profit and Loss under the heading "Impairments on financial instruments".

(ix) Determination of fair value

On initial recognition, all the financial instruments are measured at fair value. For subsequent measurement,

the Company measures certain categories of financial instruments (as explained in Note 2.4) at fair value on each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments - Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments - Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

Level 3 financial instruments - Those that include one or more unobservable input that is significant to the measurement as whole.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Difference between transaction price and fair value at initial recognition

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Company recognises the difference between the transaction price and the fair value in profit or loss on initial recognition (i.e. on day one).

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is not recognised at the initial recognition stage.

(x) Derivatives and hedging activity

The Company uses derivative contracts like forward contracts to hedge its risk associated with foreign currency and interest rate fluctuation relating to foreign currency floating rate borrowings. Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain/loss is recognized in the Statement of Profit and Loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on nature and type of the hedge relationship designated.

Cash flow hedges that qualify for hedge accounting

The hedge instruments are designated and documented as hedges at the inception of the contract. The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately

Notes forming part of Standalone Financial Statements

for the year ended March 31, 2025 (continued)

reclassified in net foreign exchange gains in the statement of profit and loss.

The effective portion of change in the fair value of the designated hedging instrument is recognised in the other comprehensive income and accumulated under the heading cash flow hedging reserve. Such amounts are reclassified into the statement of profit and loss when the related hedged items affect profit and loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in the statement of profit and loss when the forecasted transaction ultimately affects profit and loss. Any gain or loss is recognised immediately in the statement of profit and loss when the hedge becomes ineffective.

2.5 Investment in subsidiaries

Investment in subsidiaries and associates are recognised at cost. Cost of investment represents amount paid for acquisition of the said investment.

The Company assesses at the end of each reporting period if there are any indications of impairment on such investments. If so, the Company estimates the recoverable value/amount of the investment and provides for impairment, if any i.e. the deficit in the recoverable value over cost.

2.6 Share Capital

The Company has only one class of equity shares. Par value of the equity share is recorded as the share capital and the amount received in excess of par value is classified as share premium. Equity shares issued by the Company are recognised at the proceeds received net of direct issue cost.

Treasury shares represent the consideration paid by the Company, including any directly attributable costs, to repurchase its own ordinary shares. Treasury shares are presented as a deduction from total equity. On cancellation of treasury shares, the amount paid is adjusted against share capital, to the extent of the par value of ordinary shares repurchased, and the balance is adjusted against share premium.

2.7 Revenue from operations

(i) Interest Income

Interest income is recognised by applying (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL, taking into account the amount outstanding and the applicable interest rate.

Processing fees on loans is collected towards processing of loan and are considered integral part of loan. This is amortised on EIR basis over the contractual life of the loan.

The EIR is computed:

- As the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset to the gross carrying amount of a financial asset
- By considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) in estimating the cash flows
- Including all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows are recognised in interest income with the corresponding adjustment to the carrying amount of the assets.

Delayed payment interest (penal interest) levied on customers for delay in repayments/ non-payment of contractual cashflows is recognised on realisation.

(ii) Fees & Commission Income

Fees and commission income that are not integral part of loans and advances and therefore excluded for effective interest calculation, is recognised when the Company satisfies the performance obligation, at transaction price when the consideration received or receivable based on a five-step model as set out below.:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation

Initial money Deposit charges are collected from customers for document processing, which is non refundable in the nature and are recognized on realization basis

(iii) Net gain on Fair value changes

Any differences between the fair values of financial assets classified as FVTPL held by the Company on the balance sheet date is recognised as an unrealised gain/ loss. In cases there is a net gain in the aggregate, the same is recognised in "Net gains on fair value changes" under Revenue from operations and if there is a net loss the same is disclosed as "Net loss on fair value changes" under Expenses in the standalone statement of profit and loss.

Similarly, any realised gain or loss on sale of financial instruments measured at FVTPL is recognised in net gain/ loss on fair value changes.

(iv) Advertisement income

The Company recognises advertisement income on realisation or when the right to receive the same without any uncertainties of recovery is established.

(v) Other Operating Income

The Company recognises income on recoveries of financial assets written off on realisation or when the right to receive the same without any uncertainties of recovery is established.

Foreclosure charges are collected from loan customers for early payment/ closure of loan and are recognized on realization.

2.8 Expenses

(i) Finance costs

Finance costs on borrowings is paid towards availing of loan, is amortised on EIR basis over the contractual life of loan.

The EIR in case of a financial liability is computed

- As the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of the amortised cost of a financial liability.
- By considering all the contractual terms of the financial instrument in estimating the cash flows
- Including all fees paid between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows are recognised in interest expense with the corresponding adjustment to the carrying amount of the liability.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees and commissions payable to advisers and other expenses such as external legal costs, Rating Fee etc, provided these are incremental costs that are directly related to the issue of a financial liability.

(ii) Retirement and other employee benefits

Short term employee benefit

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include short term compensated absences such as paid annual leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised as an expense during the period. Benefits such as salaries and wages, etc. and the expected cost of the bonus/ ex-gratia are recognised in the period in which the employee renders the related service.

Post-employment employee benefits

a) Defined contribution schemes

All the eligible employees of the Company who have opted to receive benefits under the Provident Fund and Employees State Insurance scheme, defined contribution plans in which both the employee and the Company contribute monthly at a stipulated rate. The Company has no liability for future benefits other than its annual contribution and recognises such contributions as an expense in the period in which employee renders the related service. If the contribution payable to the scheme for service received before the Balance Sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the Balance Sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

b) Defined Benefit schemes

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Payment of Gratuity Act, 1972'. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation, carried out by an independent actuary at each Balance Sheet date, using the Projected Unit Credit Method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

Notes forming part of Standalone Financial Statements

for the year ended March 31, 2025 (continued)

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The Company fully contributes all ascertained liabilities to The Trustees – “SBFC Finance Private Limited employees group gratuity cash accumulation scheme”. Trustees administer contributions made to the trust and contributions are invested in a scheme of insurance with the IRDA approved Insurance Company- Life Insurance Corporation of India.

Re-measurement, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

Other employee benefits

Company's liabilities towards compensated absences to employees are accrued on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary using Projected Unit Credit Method. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the standalone statement of profit and loss.

The Company presents the Provision for compensated absences under provisions in the Balance Sheet.

Share-based payment arrangements

The stock options granted to employees pursuant to the Company's Stock Options Schemes, are measured at the fair value of the options at the grant date using Black Scholes Model. The fair value of the options determined at grant date is accounted as employee compensation cost over the vesting period on a straight line basis over the period of option, based on the number of grants expected to vest, with corresponding increase in equity. The employee stock option outstanding account is shown under Reserves and Surplus.

The Company has created an Employee Welfare Trust for providing share-based payment to its employees for (a) SBFC Stock Option Policy I 2018 and (b) SBFC Stock Option Policy 2021 – I policies. The Company

uses the Trust as a vehicle for distributing shares to employees under the employee remuneration schemes for the above mentioned two policies. The Company allots shares to the Trustee of the Trust, for giving shares to employees. The Company treats Trust as its extension and shares held by the Trust are treated as treasury shares.

(iii) Leases:

In accordance with Ind AS 116 – Leases at the date of commencement of the lease, the Company has recognised a Lease Liability, except for leases with a term of 12 months or less (short-term leases) and low value leases.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate. The Company makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any option to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to termination of lease and the importance of the underlying to the Company's operation taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflect the current economic circumstances.

The right-of-use assets is subsequently measured at cost less accumulated depreciation, accumulated impairment losses, if any, and adjusted for any remeasurement of the lease liability.

The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the standalone statement of profit and loss.

The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and standalone statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in standalone statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lock in period of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

(v) Impairment of non-financial assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

Goodwill represents the excess of the cost of an acquisition over the fair value of the Company's share of the net identifiable assets of the acquired entity at the date of acquisition. Goodwill is carried at cost less accumulated impairment losses. Impairment loss on goodwill is not reversed. Goodwill is not subject to amortization and tested at least annually for impairment or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount.

(vi) Taxes

Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss

(either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity.

Goods and services tax paid on acquisition of assets or on incurring expenses:

Expenses and assets are recognised net of the goods and services tax/ service tax/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.9 Cash and cash equivalents

Cash and cash equivalents comprise the net amount of short-term, highly liquid investments that are readily convertible to known amounts of cash (short-term deposits with an original maturity of three months or less) and are subject to an insignificant risk of change in value. They are held for the purposes of meeting short-term cash commitments (rather than for investment or other purposes).

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

2.10 Property, plant and equipment

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

Depreciation

Depreciation is calculated using the straight line method to write down the cost of property and equipment to their residual values over their estimated useful lives which is in line with the estimated useful life as specified in Schedule II of the Act except for Leasehold improvements which are amortised on a straight-line basis over the period of lease or 3 years whichever is less. Leasehold improvements include all expenditure incurred on the leasehold premises that have future economic benefits. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The estimated useful lives as used by the Company are listed below:

Nature of assets	Useful life in years
Computers	
End user machines	3
Servers and networks	6
Furniture and Fixtures	10
Office equipment	5
Vehicle	8

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income/expense in the standalone statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

2.11 Intangible assets

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life, or the expected pattern of consumption of future economic benefits embodied in the asset, are accounted for by changing the amortisation period or methodology, as appropriate, which are then treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is presented as a separate line item in the standalone statement of profit and loss. Amortisation on assets acquired/ sold during the year is recognised on a pro-rata basis to the standalone statement of profit and loss from/ upto the date of acquisition/ sale.

Amortisation is calculated using the straight-line method to write down the cost of intangible assets to their residual values over their estimated useful lives. Intangible assets comprising of software are amortised on a straight-line basis over a period of 5 years, unless it has a shorter useful life.

Intangible assets with indefinite useful life is tested for impairment at each reporting period.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the standalone statement of profit and loss when the asset is derecognised.

2.12 Provisions

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the standalone statement of profit and loss net of any reimbursement.

2.13 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statement.

2.14 Earnings Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

2.15 Segments

Based on "Management Approach" as defined by Ind AS 108, The Chief Operating Decision Maker (CODM) evaluates the "Operating Segments". Operating segments are reported in a manner consistent with the internal reporting provided to the CODM. The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Company.

2.16 Significant accounting judgements, estimates and assumptions

The preparation of financial statement in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statement is included in the following notes:

2.17.1 Impairment of loans portfolio

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

2.17.2 Share-Based Payments

Estimating fair value for share-based payment transactions requires use of an appropriate valuation model. The Company measures the cost of equity-settled transactions with employees using Black-Scholes Model to determine the fair value of the options on the grant date.

Inputs into the valuation model, includes assumption such as the expected life of the share option, volatility and dividend yield.

Further details used for estimating fair value for share-based payment transactions are disclosed in Note 41.

2.18 Operating Cycle

Based on the nature of products/ activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months.

2.19 Foreign Currency

Foreign currency transactions are recorded on initial recognition in the functional currency using the exchange rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date.

Exchange differences arising on the settlement or translation of monetary items are recognised in Standalone Statement of profit or loss in the year in which they arise.

2.20 Recent Accounting Pronouncements

Ministry of Corporate Affairs ('MCA') notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

39.1 Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

39.2 Valuation technique used to determine fair value

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below.

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (adjusted/unadjusted) for identical assets. This category consists of quoted mutual fund units and government securities.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets, measured using inputs other than quoted prices included within Level 1 that are observable for the asset, either directly (i.e.; as prices) or indirectly (i.e.; derived from prices). This category includes derivative financial instruments.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets measured using inputs that are not based on observable market data. Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. This category includes investment in Pass-through Certificates.

There has been no transfer between level 1, level 2 and level 3 for the year ended March 31, 2025 and March 31, 2024.

The carrying amounts of trade receivables, trade payables and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

The fair value of Loan approximates the carrying amount.

For financial assets and liabilities measured at fair value, the carrying amounts approximates the fair values.

(a) Defined Contribution plans

Provident Fund

The Company makes Provident Fund contributions to defined contribution retirement benefit plans for eligible employees. Under the schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions as specified under the law are paid to the Employee Provident Fund Organization (Government).

The Company recognized expense as contribution to provident fund amounting to ₹ 119.30 Million (March 31, 2024: ₹ 95.78 Million) in the statement of profit and loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

(b) Defined benefit plans

Gratuity Fund

Characteristics of defined benefit plan

The Company has a defined benefit gratuity plan in India (funded). The Company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to SBFC Finance Limited employees group gratuity cash accumulation scheme."

Risks associated with defined benefit plan

Gratuity is a defined benefit plan and Company is exposed to the following risks:

- A. Actuarial Risk:** It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:
- Adverse Salary Growth Experience:** Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.
- Variability in mortality rates:** If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.
- Variability in withdrawal rates:** If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.
- B. Investment Risk:** For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.
- C. Liquidity Risk:** Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/ retire from the Company there can be strain on the cashflows.
- D. Market Risk:** Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/ government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.
- E. Legislative Risk:** Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

During the year ended March 31, 2025 and March 31, 2024, there were no plan amendments, curtailments and settlements.

The Life Insurance Corporation is managing the Gratuity Plan and the contributions to it is done as guided by rule 103 of Income Tax Rules, 1962.

Other Post Retirement Benefit Plan

The details of the Company's post-retirement benefit plans for its employees including whole-time directors are given below which is as certified by the actuary and relied upon by the auditors.

(c) Code on Social Security

The Indian parliament has approved Code on Social Security, 2020 ("the Code") which would impact the contributions by the Company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020 and has invited suggestions from stakeholders which are under active consideration by the Ministry. The Company will assess the impact and its evaluation once the subject rules are notified and will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

47.1 The Company's pending litigations comprise of claims against the Company by the customers and proceedings pending with other authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in the financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial statements.

48 Risk Disclosures

The Company's risk is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities. The Company is exposed to credit risk, liquidity risk, interest rate risk and price risk. It is the Company's policy to ensure that a robust risk awareness is embedded in its organizational risk culture.

48.1 Credit risk

Credit risk is the risk that the Company will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties.

48.1.1 Impairment assessment

During the current year, the Company has made refinement in the ECL model and said changes have been updated in the ECL policy which is duly approved by the audit committee. However, there is no material impact on the financial statements of the Company.

Exposure at Default

EAD is taken as the gross exposure under a facility upon default of an obligor. The amortized principal and the interest accrued is considered as EAD for the purpose of ECL computation

The advances have been bifurcated into following three stages:

Stage 1

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The Company classifies all standard advances and advances up to 0-30 days default under this category. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.

Stage 2

All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. Financial assets past due for 31-90 days are classified under this stage. The Company uses the below criteria for assessing movement to Stage 2:

- a) Financial assets past due between 31-90
- b) The Company becomes aware about any deterioration in the financial condition and reputation of the obligor which the management believes may lead to significant deterioration in credit risk

Stage 3

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. Stage 3 is considered where "Contractual payments of principal and/or interest are past due for more than 90 days.

Non performing Asset classification is done in line with Reserve Bank of India Master Circular on Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances and Clarifications dated November 12, 2021 and dated February 15, 2022."

Significant increase in credit risk

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Company does the assessment of significant increase in credit risk at a borrower level. If a borrower has various facilities having different past due status, then the highest days past due (DPD) is considered to be applicable for all the facilities of that borrower."

PD estimation process

Probability of default ("PD") is defined as the likelihood of default over a particular time horizon. The PD of an obligor is a fundamental risk parameter in credit risk analysis and depends on obligor specific as well as macroeconomic risk factors. The impact of macroeconomic criteria on the PD results in two different PD estimates, through-the-cycle ("TTC") and the point-in-time ("PIT") PD. A TTC PD estimate remains largely unaffected by the economic cycle, while a PIT PD estimate varies with the economic cycle.

Loss given default

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

48.1.2 Analysis of risk concentration - Refer Note 54.16.3

48.1.3 Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Company has Guidelines in place covering the acceptability and valuation of each type of collateral. The Company also adheres to the RBI guidelines in respect of maintenance of adequate Loan to Value Ratios.

The main types of collateral for loans are Registered / equitable mortgage of property, Hypothecation of assets including Gold. Management monitors the market value of collateral and requests additional collateral in accordance with the underlying agreement.

In case of defaults by customers, where the Company is unable to recover the dues, the Company through a legal process enforces the security and recover the dues.

48.2 Liquidity risk and funding management

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to the Company on acceptable terms. To limit this risk, management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a daily basis.

Liquidity risk is managed in accordance with our Asset Liability Management Policy. This policy is framed as per the current regulatory guidelines and is approved by the Board of Directors. The Asset Liability Management Policy is reviewed periodically to incorporate changes as required by regulatory stipulation or to realign the policy with changes in the economic landscape. The Company also maintains LCR in accordance with RBI guidelines and board approved Liquidity risk framework. The Asset Liability Committee (ALCO) of the Company formulates and reviews strategies, LCR and provides guidance for management of liquidity risk within the framework laid out in the Asset Liability Management Policy.

Analysis of financial assets and liabilities by remaining contractual maturities is provided in **Note 38**

48.3 Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

The core business of the Company is providing loan against property, loan against gold and personal loans. The Company borrows through various financial instruments to finance its core lending activity. These activities expose the Company to interest rate risk.

Interest rate risk is measured through earnings at risk from an earnings perspective and through duration of equity from an economic value perspective. Further, exposure to fluctuations in interest rates is also measured by way of gap analysis, providing a static view of the maturity and re-pricing characteristic of Balance sheet positions. An interest rate sensitivity gap report is prepared by classifying all rate sensitive assets and rate sensitive liabilities into various time period categories according to contracted/ behavioural maturities or anticipated re-pricing date. The difference in the amount of rate sensitive assets and rate sensitive liabilities maturing or being re-priced in any time period category, gives an indication of the extent of exposure to the risk of potential changes in the margins on new or re-priced assets and liabilities. The interest rate risk is monitored on a quarterly basis.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being considered as constant) of the Company's statement of profit and loss and equity.

48.4 Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign currency rates. The Company is mainly exposed to changes in USD. The below table demonstrates the sensitivity to a 5% increase or decrease in the respective foreign currency rates against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the foreign currency borrowings from banks and vendor payments. The Company has hedged its foreign currency exposure arising from bank borrowings through forward contracts in such a manner that it has fixed determinate outflows in its functional currency and as such there would be no significant impact of movement in foreign currency rates on the Company.

As of balance sheet date, Company's net foreign currency exposure expressed in INR that is not hedged is ₹ Nil (31 March 2024 - Nil)

49 Transferred financial assets that are not derecognized in their entirety

The Company has entered into securitization arrangements to transfer the part of its portfolio of Loan against property. The terms of the arrangement included over collateralization of the assets of the Company through lien on Fixed deposits. Since the Company had retained significant risk in the transfer of the portfolio, the asset is retained in the books. Consequently, the amount received as sale consideration is shown as Collateralized borrowings in the financial statements.

54.16.7 Disclosure of Frauds reported during the year vide DNBS.PD.CC NO.256/03.10.042/2011-12 Dated March 02, 2012

Instances of fraud reported upto March 31, 2025: (₹ In Million)

Nature of fraud	No. of cases	Amount of fraud	Recovery	Amount write off
Misappropriation and criminal breach of trust & Cheating and Forgery	6	3.51	0.18	NIL

Six fraud cases have been identified and reported to the RBI. These cases involved misrepresentations such as concealment of existing loans against the same collateral, submission of vacant land in place of residential property, tampered KYC documents, unauthorized collection of disbursed loan amounts, and bypassing mandatory borrower consent. Additionally, one case involved a third-party employee falsely promising loans in exchange for upfront cash. In response, SBFC Finance Ltd. has implemented several preventive actions, including enhanced due diligence such as boundary verification, SRO record checks, Encumbrance Certificate validation, utility bill reviews, and third-party/ neighborhood validations. Further, internal process improvements like borrower in-person verifications, employee training, and clearer customer declarations have been enforced to prevent recurrence of such incidents.

57 Disclosure on Liquidity Coverage Ratio

As per RBI guidelines no DOR.NBFC (PD) CC. No.102/03.10.001/2019-20 Dated November 04, 2019, NBFCs assets with more than ₹ 5,000 crores, required to maintain Liquidity Coverage Ratio (LCR) as mentioned therein.

As on October 31, 2022 the Company has crossed ₹ 5,000 crores assets mark and adopted to start complying with the monitoring and tracking of Liquidity Coverage Ratio (LCR) as part of Liquidity Risk Management framework from November 25, 2022 onwards as per RBI guidelines.

The objective of this policy is to create an institutional mechanism to compute, review and monitor periodically all the elements of the liquidity, develop suitable Liquidity Risk Management Framework, identify potential risks, take suitable decisions and mitigate such risks.

As per RBI guidelines to ensure strong liquidity, NBFCs shall maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that can be converted into cash to meet its liquidity needs for a 30-day calendar time horizon under a significantly severe liquidity stress scenario.

The Company follows the criteria laid down by RBI for calculation of Liquidity coverage Ratio (LCR) which is represented by the ratio "Stock of HQLA" divided by "Total Net Cash Outflows over the next 30 calendar days". Total expected cash outflows (stressed outflows) are calculated by multiplying the outstanding balances of various categories or types of liabilities and off-balance sheet commitments by 115% (15% being the rate at which they are expected to run off further or be drawn down). Total expected cash inflows (stressed inflows) are calculated by multiplying the outstanding balances of various categories of contractual receivables by 75% (25% being the rate at which they are expected to under-flow). However, total cash inflows will be subjected to an aggregate cap of 75% of total expected cash outflows. In other words, total net cash outflows over the next 30 days = Stressed Outflows - Min (stressed inflows; 75% of stressed outflows).

The Company for purpose of computing cash outflows, have considered:

- 1. Secured wholesale funding i.e., all the contractual debt repayments,
- 2. Liquidity needs (e.g., collateral calls) related to financing transactions, derivatives and other contracts where 'downgrade triggers' up to and including a 3-notch downgrade,
- 3. Currently undrawn committed credit and liquidity facilities,
- 4. Any other contractual outflows not captured elsewhere in the template i.e., operational expenditure

Cash Inflows comprises of:

- 1. All other assets i.e., expected receipt from all performing loans,
- 2. Lines of credit – Credit or liquidity facilities or other contingent funding facilities that the NBFC holds at other institutions for its own purpose (Facilities which are sanctioned but not yet disbursed)
- 3. Other contractual cash inflows (Includes fixed deposits and mutual funds)

HQLA is considered as per RBI guidelines.

The Company exceeds the regulatory requirement of LCR which mandated maintaining 60% of expected net cash outflows for next 30 days in a stressed scenario in high quality liquid assets (HQLA) by December 2022; which has to be increased to 100% by December 2024 in a phased manner. During the quarter ended June 24, September 24, December 24 and March 25, the Company maintained a LCR of 335.24%, 395.33%, 285.14% & 261.09% respectively, well in excess of the RBI's stipulated norm of 85%.

Appendix I - As on Quarter ended March 31, 2025, December 31, 2024, September 30, 2024 and June 30, 2024 (Average for the period from 01-Jan-2025 to 31-Mar-2025, 01-Oct-2024 to 31-Dec-24, 01-July-24 to 30-September-24, 01-April-2024 to 30-June-24)

Consolidated Financial Statements

Opinion

- We have audited the accompanying consolidated financial statements of **SBFC Finance Limited** ('the Holding Company') and its subsidiary – **SBFC Home Finance Private Limited** (the Holding Company and its subsidiary together referred to as the 'Group'), which comprise the Consolidated Balance Sheet as at 31 March 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of the material accounting policies and other explanatory information (hereinafter referred to as the 'consolidated financial statements').
- In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate financial statements of a subsidiary, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, the relevant circulars, guidelines and directions issued by the Reserve Bank of India (RBI) from time to time ('RBI Guidelines') and other accounting principles generally accepted in India of the consolidated state of affairs of the Group as at 31 March 2025, and their consolidated profit (including

other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

- We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us along with the consideration of audit report of the other auditor referred to in the 'Other Matter' paragraph below is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

- Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
- We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter

How our audit addressed the key audit matter

Impairment of loans and advances to customers

(Refer Note 2 for material accounting policies and Note 48.1 for credit risk disclosures)

As at 31 March 2025, the Group has reported gross loan assets of ₹ 76,416.78 million against which an impairment loss of ₹ 1,375.84 million has been recorded. The Group recognized impairment provision for loan assets based on the Expected Credit Loss ("ECL") approach laid down under 'Ind AS 109 – Financial Instruments'.

The estimation of ECL on financial instruments involves significant management judgement and estimates and the use of modelling techniques and assumptions which could have a material impact on reported profits. Significant management judgement and assumptions involved in measuring ECL is required with respect to:

- ensuring completeness and accuracy of the data used to create assumption in the model.

Our audit focused on assessing the appropriateness of management's judgment and estimates used in the impairment analysis through procedures that included, but were not limited to, the following:

- Obtained an understanding of the modelling techniques adopted by the Group including the key inputs and assumptions;
- Considered the Group's accounting policies for estimation of expected credit loss on loans and assessing compliance with the policies in terms of Ind AS 109;
- Assessed reasonableness of the methodology and assumption used to determine management overlays;

Key Audit Matter	How our audit addressed the key audit matter
factoring in future economic assumptions techniques used to determine probability of default, loss given default and exposure at default. These parameters are derived from the Group's internally developed statistical models and other historical data. On the basis of an estimate made by the management, an overlay to the tune of ₹ 46.56 millions has been carried by the Group as at 31 March 2025 on loans basis their performance and outstanding position. The basis of estimates and assumptions involved in arriving at the overlay are monitored by the Group periodically and significantly depend on future developments in the Group's portfolio and the economy. Disclosure The disclosures regarding the Group's application of Ind AS 109 are key to explaining the key judgements and material inputs to the ECL results. Further, disclosures to be provided as per RBI circulars with regards to non-performing assets and provisions is also an area of focus. Considering the significance of the above matter to the overall financial statements and extent of management's estimates and judgements involved, it required significant auditor attention. Accordingly, we have identified this as a key audit matter.	- Tested the design and operating effectiveness of key controls over completeness and accuracy of the key inputs and assumptions considered for calculation, recording, monitoring of the impairment loss recognized and staging of assets; - Assessed the critical assumptions and input data used in the estimation of expected credit loss models for specific key credit risk parameters, such as the movement logic between stages, Exposure at default (EAD), probability of default (PD) or loss given default (LGD); - Evaluated the reports and working for the methodology used in the computation of Through The Cycle PD, Point In Time PD and LGD, among others; - Performed test of details over calculation of ECL, in relation to the completeness and accuracy of the data; - Obtained written representations from management and those charged with governance on whether they believe significant assumptions used in calculation of expected credit losses are reasonable; Assessed the appropriateness and adequacy of the related presentation and disclosures of Note 48 "Financial risk management" disclosed in the accompanying financial statements in accordance with the applicable accounting standards and related RBI circulars and Resolution Framework.

Information other than the Consolidated Financial Statements and Auditor’s Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board's Report (including annexures thereto) and Management Discussion and Analysis ("MD&A") (collectively referred to as "other information"), but does not include the consolidated financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of audit or otherwise appears to be materially misstated.

When we read the Other Information, if we conclude that there is a material misstatement therein, we are

required to communicate the matter to those charged with governance as required under SA 720 (Revised) 'The Auditor's responsibilities Relating to Other Information'.

Board of Director’s Responsibilities for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, RBI Guidelines and other accounting principles generally accepted in India. The respective Board of Directors of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective Company and for preventing and detecting frauds and other irregularities; selection and

application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

- 8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of respective Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so except as disclosed in paragraph 16 wherein the subsidiary company has gone for voluntary liquidation.
- 9. The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of each company.

Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements

- 10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
- 11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;
- Conclude on the appropriateness of the Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern (refer paragraph 16);
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entity included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
- 12. We communicate with those charged with governance of the Holding Company, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

15. The consolidated financial statements include the audited interim financial information of a subsidiary, whose financial statements reflect total assets (before consolidation adjustments) of ₹ Nil as at 31 March, 2025, total revenue (before consolidation adjustments) of ₹ 10.41 Million, net profit after tax (before consolidation adjustments) of ₹ 6.56 Million and net cash outflows of ₹ 5.23 Million for the year ended on that date, as considered in the consolidated financial statements, which has been audited by its independent auditor. The independent auditor's report on the financial statements of this entity has been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, is based solely on the report of such auditor and the procedures performed by us are as stated in paragraph above.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter with respect to our reliance on the work done and the report of the other auditor.

16. SBFC Home Finance Private Limited, a wholly owned and non-material subsidiary of SBFC Finance Limited, is into voluntary liquidation proceedings under the Insolvency and Bankruptcy Code, 2016 with effect from January 27, 2025. The subsidiary was incorporated to operate as a Housing Finance Company; however, its application for registration with the Reserve Bank of India (RBI) was not considered, as it would result in layering of NBFCs. Since the subsidiary had not commenced any business or operations since incorporation, and the intended objective was not achieved, the decision for voluntary liquidation was taken.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter.

17. The consolidated financial statements of the Company for the year ended 31 March 2024 were audited by

the predecessor auditor, Suresh Surana & Associates LLP, Chartered Accountants, who have expressed an unmodified opinion on those consolidated financial statements vide their audit report dated April 27, 2024. Accordingly, we do not express any opinion on the figures reported in the consolidated financial statements for the year ended as at March 31, 2024.

Report on Other Legal and Regulatory Requirements

18. With respect to the matters specified in paragraphs 3(xxii) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/"CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Holding Company and its subsidiary included in the consolidated financial statements of the Company, we report that there are no qualifications or adverse remarks in these CARO reports.

19. As required by section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statements of a subsidiary, as noted in 'other matters paragraph', we report, to the extent applicable, that:

- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the report of the other auditor, except for the matters stated in paragraph 19(g)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) ("the Rules");
- The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- in our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;
- On the basis of the written representations received from the directors of the Holding Company, and taken on record by the Board of Directors of the Holding Company incorporated in India, none of the directors of the Holding Company incorporated in India is disqualified as on 31 March 2025 from being appointed as a director in terms of section 164(2) of the Act;

Further, based on the reports of the statutory auditor of its subsidiary company none of the directors of the Subsidiary Company incorporated in India is disqualified as on January 27, 2025 (refer paragraph 16).

- With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" with respect to the Holding Company. Further, as the Subsidiary Company fulfills the conditions of paragraph 9A of the notification No. GSR 464(E) dated 5 June 2015 as amended, reporting under Section 143(3)(i) of the Act with respect to the adequacy of internal financial controls over financial reporting of the Subsidiary Company and operating effectiveness of such controls is not applicable for the year; and

- With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of the other auditor on the separate financial statements of the subsidiary as noted in other matter paragraph:

- The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group as detailed in Note 47 to the consolidated financial statements;
- The Group has made provision as at 31 March 2025, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
- There are no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its subsidiary company incorporated in India during the year ended 31 March 2025;
- The management has represented that, to the best of its knowledge and belief as disclosed in note 52.13 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company to or in any persons or entities, including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever

by or on behalf of the Holding Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- The management, as disclosed in the note 52.13 to the accompanying consolidated financial statements has represented that, to the best of its knowledge and belief, no funds have been received by the Holding Company from any persons or entities, including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- Based on such audit procedures performed by us, as considered reasonable and appropriate in the circumstances, nothing has come to our attention that causes us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

- The Holding Company has not declared any dividend during the year ended 31 March 2025. Accordingly, the provision of section 123 of the Act is not applicable; and

- Based on our examination, which included test checks, the Group has used various accounting software for maintaining its books of account which have a feature of recording audit trail (edit log) facility, which have operated throughout the year for all relevant transactions recorded in the software, except in respect of one accounting software where the audit trail feature at the database level (DML logs) was not enabled throughout the year to log any direct data changes. Based on our procedures performed, we did not notice any instance of the audit trail feature being tampered with. In respect of the aforesaid database, in the absence of audit trail for the said period, the question of our commenting on whether the audit trail was tampered with, does not arise. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure A to the Independent Auditor’s Report

Independent Auditor’s Report on the internal financial controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’)

(Referred to in paragraph 19 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

- 1. In conjunction with our audit of the consolidated financial statements of **SBFC Finance Limited** (‘the Holding Company’) as at and for the year ended **31 March 2025**, we have audited the internal financial controls with reference to the financial statements of the Holding Company as at that date.

Management’s Responsibility for Internal Financial Controls

- 2. The Holding Company’s management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Holding Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

- 3. Our responsibility is to express an opinion on the Holding Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls over financial reporting. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining

an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

- 5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

- 6. A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

- 7. Because of the inherent limitations of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to further periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

- 8. In our opinion, to the best of our information and according to the explanations given to us, the Holding Company has, in all material respects, an adequate internal financial controls system over financial

reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note

Notes forming part of Consolidated Financial Statements
for the year ended March 31, 2025

1. Corporate Information

SBFC Finance Limited ('the Parent Company') is a limited company incorporated in India under the Companies Act, 1956, having its registered office at First Floor, C&B Square, Sangam Complex, Andheri Kurla Road, Chakala, Andheri (East), Mumbai- 400059, Maharashtra. The parent Company is registered with the Reserve Bank of India (RBI) as a Non deposit taking Non-Banking Financial Company ("NBFC") as defined under section 45-IA of the Reserve Bank of India (RBI) Act, 1934. The Company is classified under "Middle Layer" pursuant to Master Direction- Reserve Bank of India (Non-Banking Financial Company- Scale Based Regulation) Directions, 2023.

The registration details are as follows:

Reserve Bank of India Registration no : N-13.01913

Corporate Identity Number (CIN):
L67190MH2008 PLC178270

On December 6, 2022, the Parent Company has incorporated a wholly owned subsidiary with Corporate Identity Number (CIN) U65992MH2022PTC394642 in the name of – SBFC Home Finance Private Limited ('the Subsidiary Company'). The Subsidiary has filed an application for registration as housing finance company with the Reserve Bank of India on March 29, 2023.

The Parent Company together with its subsidiary, hereinafter, collectively referred to as the 'Group'.

The Parent Company is in the business of giving loans to Micro Enterprise secured by residential or commercial property. The Parent Company also give loan against gold, which offers superior yields with almost liquid security assets. The Parent Company also gives unsecured personal loans and unsecured business loans.

The consolidated financial statements for the year ended March 31, 2025 were authorised for issue in accordance with a resolution of the board of directors on April 26, 2025.

2. Material accounting policies

2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles. The consolidated financial statements have been prepared under the historical cost convention, as modified by the application of fair value measurements required or allowed by relevant Accounting Standards. Accounting policies have been consistently applied to all periods presented, unless otherwise stated.

The consolidated financial statements are presented in Indian Rupees (₹) in Million and all values are rounded to the nearest Rupee in Ten Thousand, except when otherwise indicated.

2.2 Principles of Consolidation

- i. The consolidated financial statements incorporate the standalone financial statements of the Parent Company and its subsidiary (from the date control is gained), being the entity that it controls. Control is evidenced where the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the entity's returns. The standalone financial statements of subsidiary is prepared for the same reporting year as the parent company. Where necessary, adjustments is made to the standalone financial statements of subsidiary to align the accounting policies in line with accounting policies of the Parent Company.

Subsidiary has been consolidated by combining like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiary. Intragroup balances and transactions, and any unrealised income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements.

Non-controlling interests (NCI):

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parents of the Group and to the non-controlling interest, even if this results in the non-controlling interests have a deficit balance. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

When the Parent loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in profit or loss.

- ii. The consolidated financial statements of the Parent Company includes standalone financial statements of its subsidiary, consolidated in accordance with Ind AS 110 'Consolidated financial statements'.

2.3 Presentation of consolidated financial statements

The consolidated financial statements of the Group are presented as per Schedule III (Division III) of the Companies Act, 2013, applicable to NBFCs as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when, there is an unconditional

legally enforceable right to offset the recognised amounts without being contingent on a future event and the parties intend to settle on a net basis in the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Group and/ or its counterparties

2.4 Statement of compliance

These Consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (IND AS) as per the Companies (Indian Accounting Standards) Rules, 2015, as amended by the Companies (Indian Accounting Standards) Rules, 2016, notified under Section 133 of the Companies Act, 2013 (the "Act") (as amended), other relevant provisions of the Act, guidelines issued by the Reserve Bank of India as applicable to an NBFCs and other accounting principles generally accepted in India. Any application guidance / clarifications / directions issued by RBI or other regulators are implemented as and when they are issued / applicable, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied except where compliance with other statutory promulgations require a different treatment. Accounting policies have been consistently applied except where a newly issued Ind AS is initially adopted or a revision to an existing Ind AS required a change in the accounting policy hitherto in use. The financial statements were authorised for issue by the Board of Directors (BOD) on April 26, 2025.

The Group has adopted the amendments to Ind AS 1 for the first time in the current year as per Companies (Indian Accounting Standards) Amendment Rules, 2023 and applicable from April 1, 2023. The amendments change the requirements in Ind AS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

2.5 Financial instruments

(i) Classification of financial instruments

The Group classifies its financial assets into the following measurement categories:

- Financial assets to be measured at amortised cost
- Financial assets to be measured at fair value through other comprehensive income
- Financial assets to be measured at fair value through profit or loss account

The classification depends on the contractual terms of the financial assets' cash flows and the Group's business model for managing financial assets which are explained below:

Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Group's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

The Solely Payments of Principal and Interest (SPPI) test

As a second step of its classification process, the Group assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility

that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The Group classifies its financial liabilities at amortised costs.

(ii) Financial assets measured at amortised cost

These financial assets comprise bank balances, receivables, investments and other financial assets.

These are measured at amortised cost where they have:

- contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest on the principal amount outstanding; and
- are held within a business model whose objective is achieved by holding to collect contractual cash flows.

These instruments are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at amortised cost.

(iii) Items at fair value through profit or loss (FVTPL)

Items at fair value through profit or loss comprise:

- Investments (including equity shares) held for trading;
- Items specifically designated as FVTPL on initial recognition; and
- debt instruments with contractual terms that do not represent solely payments of principal and interest.

Financial instruments held at FVTPL are initially recognised at fair value, with transaction costs recognised in the consolidated statement of profit and loss as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the consolidated statement of profit and loss as they arise.

(iv) Debt securities and other borrowed funds

After initial measurement, debt issued, and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

(v) Reclassification

If the business model under which the Group holds financial assets changes, the financial assets affected are reclassified. The classification and measurement requirements related to the new category apply prospectively from the first day of the first reporting period following the change in business model that result in reclassifying the Group's financial assets. Changes in contractual cash flows are considered under the accounting policy on Modification and derecognition of financial assets described below.

(vi) Recognition and Derecognition of financial assets and liabilities

Recognition:

- Loans and Advances are initially recognised when the Financial Instruments are transferred to the customers.
- Investments are initially recognised on the trade date.
- Debt securities, deposits and borrowings are initially recognised when funds reach the Group.
- Other Financial assets and liabilities are initially recognised on the trade date, i.e., the date that the Group becomes a party to the contractual provisions of the instrument.

Derecognition of financial assets

- Financial assets:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Group also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Group has transferred the financial asset if, the Group has transferred its contractual rights to receive cash flows from the financial asset.

A transfer only qualifies for derecognition if either:

- The Group has transferred substantially all the risks and rewards of the asset, or
- The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Group considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Group has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Group's continuing involvement, in which case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

- Financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged,

Notes forming part of Consolidated Financial Statements

for the year ended March 31, 2025 (*continued*)

cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in the Consolidated Statement of Profit and Loss.

(vii) Impairment of financial assets

Overview of the ECL principles

The Group records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with financial guarantee contracts, in this section all referred to as 'financial instruments. Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis.

The Group has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Group does the assessment of significant increase in credit risk at a borrower level. If a borrower has various facilities having different past due status, then the highest days past due (DPD) is considered to be applicable for all the facilities of that borrower.

Based on the above, the Group categorises its loans into Stage 1, Stage 2 and Stage 3 as described below:

Stage 1

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The Group classifies all standard advances and advances up to 0-30 days default under this category. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.

Stage 2

All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. Financial assets past due for 31-90 days are classified under this stage. The Group uses the below criteria for assessing movement to Stage 2:

- Financial assets past due between 31-90
- The Group becomes aware about any deterioration in the financial condition and reputation of the obligor which the management believes may lead to significant deterioration in credit risk

Stage 3

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. 90 days Past Due is considered as default for classifying a financial instrument as credit impaired. If an event warrants a provision higher than as mandated under ECL methodology, the Group may classify the financial asset in Stage 3 accordingly.

Non performing Asset classification is done in line with Reserve Bank of India Master Circular on Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances and Clarifications dated November 12, 2021 and dated February 15, 2022.

Credit-impaired financial assets:

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt financial assets carried at FVTOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the borrower or issuer;
- A breach of contract such as a default or past due event; or
- The disappearance of an active market for a security because of financial difficulties.

The mechanics of ECL

The Group calculates ECLs based on probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A

cash shortfall is the difference between the cash flows that are due to the Group and the cash flows that the Group expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

Probability of Default (PD) – Probability of default ("PD") is defined as the likelihood of default over a particular time horizon. The PD of an obligor is a fundamental risk parameter in credit risk analysis and depends on obligor specific as well as macroeconomic risk factors. The impact of macroeconomic criteria on the PD results in two different PD estimates, through-the-cycle ("TTC") and the point-in-time ("PIT") PD. A TTC PD estimate remains largely unaffected by the economic cycle, while a PIT PD estimate varies with the economic cycle.

Exposure at Default (EAD) – EAD is taken as the gross exposure under a facility upon default of an obligor. The amortized principal and the interest accrued is considered as EAD for the purpose of ECL computation

Loss Given Default (LGD) – The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

Reposessed assets

In Loan Against Property / Mortgage Loan, the collateral on a loan can be reposessed as part of legal process through SARFAESI, arbitration etc. In such scenario, property value assessment to be done based on existing valuation done for NPA cases or fresh valuation done post repossession of the property. Basis the assessment of the valuation, additional provision to be done to the extent of shortfall in the value of asset not covered with the existing ECL provision.

Further, property auction/sale to be conducted for such reposessed assets as per legal process and guidelines basis collection manual. Once the property is sold, based on the actual realization the ECL shortfall or surplus to be accounted for.

If any reposessed asset is not sold for 24 months post repossession, the account should be marked for accelerated provision and account should be fully provided.

(viii) Write-offs

The Group reduces the gross carrying amount of a financial asset when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subjected to write-offs. However, financial assets that are written-

off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any write-offs/ subsequent recoveries against such loans are debited/ credited in the Consolidated Statement of Profit and Loss under the heading "Impairments on financial instruments".

(ix) Determination of fair value

On initial recognition, all the financial instruments are measured at fair value. For subsequent measurement, the Group measures certain categories of financial instruments (as explained in Note 2.5) at fair value on each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Group has access to at the measurement date. The Group considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market

Notes forming part of Consolidated Financial Statements

for the year ended March 31, 2025 (*continued*)

data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Group will classify the instruments as Level 3.

Level 3 financial instruments – Those that include one or more unobservable input that is significant to the measurement as whole.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Difference between transaction price and fair value at initial recognition

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Group recognises the difference between the transaction price and the fair value in profit or loss on initial recognition (i.e. on day one).

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is not recognised at the initial recognition stage.

(x) Derivatives and hedging activity

The Company uses derivative contracts like forward contracts to hedge its risk associated with foreign currency and interest rate fluctuation relating to foreign currency floating rate borrowings. Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain/loss is recognized in the Statement of Profit and Loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on nature and type of the hedge relationship designated.

Cash flow hedges that qualify for hedge accounting

The hedge instruments are designated and documented as hedges at the inception of the contract. The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified in net foreign exchange gains in the statement of profit and loss.

The effective portion of change in the fair value of the designated hedging instrument is recognised in the other comprehensive income and accumulated under the heading cash flow hedging reserve. Such amounts are reclassified into the statement of profit and loss when the related hedged items affect profit and loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in the statement of profit and loss when the forecasted transaction ultimately affects profit and loss. Any gain or loss is recognised immediately in the statement of profit and loss when the hedge becomes ineffective.

2.6 Share Capital

The Company has only one class of equity shares. Par value of the equity share is recorded as the share capital and the amount received in excess of par value is classified as share premium. Equity shares issued by the Company are recognised at the proceeds received net of direct issue cost.

Treasury shares represent the consideration paid by the Company, including any directly attributable costs, to repurchase its own ordinary shares. Treasury shares are presented as a deduction from total equity. On cancellation of treasury shares, the amount paid is adjusted against share capital, to the extent of the par value of ordinary shares repurchased, and the balance is adjusted against share premium.

2.7 Revenue from operations

(i) Interest Income

Interest income is recognised by applying (EIR) to the gross carrying amount of financial assets other than credit-impaired assets and financial assets classified as measured at FVTPL, taking into account the amount outstanding and the applicable interest rate. Interest income is recognised on non-performing assets at net of ECL.

Processing fees on loans is collected towards processing of loan and are considered integral part of loan. This is

amortised on EIR basis over the contractual life of the loan.

The EIR is computed:

- As the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset to the gross carrying amount of a financial asset
- By considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) in estimating the cash flows
- Including all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows are recognised in interest income with the corresponding adjustment to the carrying amount of the assets.

Delayed payment interest (penal interest) levied on customers for delay in repayments/ non-payment of contractual cashflows is recognised on realisation.

(ii) Fees & Commission Income

Fees and commissions income that are not integral part of loans and advances and therefore excluded for effective interest calculation, is recognised when the Group satisfies the performance obligation, at transaction price when the consideration received or receivable based on a five-step model as set out below:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation

Foreclosure charges are collected from loan customers for early payment/ closure of loan and are recognized on realization.

Initial money Deposit charges are collected from customers for document processing, which is non refundable in the nature and are recognized on realization basis

(iii) Net gain on Fair value changes

Any differences between the fair values of financial assets classified as FVTPL held by the Group on the balance sheet date is recognised as an unrealised gain/ loss. In cases there is a net gain in the aggregate, the same is recognised in "Net gains on fair value changes" under Revenue from operations and if there is a net loss the same is disclosed as "Net loss on fair value changes" under Expenses in the Consolidated Statement of Profit and Loss.

Similarly, any realised gain or loss on sale of financial instruments measured at FVTPL and debt instruments measured at FVOCI is recognised in net gain/ loss on fair value changes.

However, Net gain/ loss on derecognition of financial instruments classified as amortised cost is presented separately under the respective head in the Consolidated Statement of Profit and Loss.

(iv) Advertisement income

The Company recognises advertisement income on realisation or when the right to receive the same without any uncertainties of recovery is established.

(v) Loan Processing Fees

Processing fees on loans is collected towards processing of loan, this is amortised on EIR basis over the contractual life of the loan.

(vi) Other Operating Income

The Group recognises income on recoveries of financial assets written off on realisation or when the right to receive the same without any uncertainties of recovery is established.

2.8 Expenses

(i) Finance costs

Finance costs on borrowings is paid towards availing of loan, is amortised on EIR basis over the contractual life of loan.

The EIR in case of a financial liability is computed

- As the rate that exactly discounts estimated future cash payments through the expected life of the financial liability to the gross carrying amount of the amortised cost of a financial liability.
- By considering all the contractual terms of the financial instrument in estimating the cash flows

Notes forming part of Consolidated Financial Statements

for the year ended March 31, 2025 (*continued*)

- c) Including all fees paid between parties to the contract that are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Any subsequent changes in the estimation of the future cash flows are recognised in interest expense with the corresponding adjustment to the carrying amount of the liability.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These include fees and commissions payable to advisers and other expenses such as external legal costs, Rating Fee etc, provided these are incremental costs that are directly related to the issue of a financial liability.

(ii) Retirement and other employee benefits

Short term employee benefit

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include short term compensated absences such as paid annual leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised as an expense during the period. Benefits such as salaries and wages, etc. and the expected cost of the bonus/ex-gratia are recognised in the period in which the employee renders the related service.

Post-employment employee benefits

a) Share contribution schemes

All the eligible employees of the Group who have opted to receive benefits under the Provident Fund and Employees State Insurance scheme, defined contribution plans in which both the employee and the parent company contribute monthly at a stipulated rate. The Group has no liability for future benefits other than its annual contribution and recognises such contributions as an expense in the period in which employee renders the related service. If the contribution payable to the scheme for service received before the Balance Sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the Balance Sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

b) Defined Benefit schemes

The Group provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees

upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Payment of Gratuity Act, 1972'. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation, carried out by an independent actuary at each Balance Sheet date, using the Projected Unit Credit Method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The Group fully contributes all ascertained liabilities to The Trustees – "SBFC Finance Private Limited employees group gratuity cash accumulation scheme". Trustees administer contributions made to the trust and contributions are invested in a scheme of insurance with the IRDA approved Insurance Group- Life Insurance Corporation of India.

Re-measurement, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

Other employee benefits

Group's liabilities towards compensated absences to employees are accrued on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary using Projected Unit Credit Method. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are

recognised immediately in the consolidated Statement of Profit and Loss.

The Group presents the Provision for compensated absences under provisions in the Balance Sheet.

Share-based payment arrangements

The stock options granted to employees pursuant to the Group's Stock Options Schemes, are measured at the fair value of the options at the grant date using Black Scholes Model. The fair value of the options determined at grant date is treated as discount and accounted as employee compensation cost over the vesting period on a straight line basis over the period of option, based on the number of grants expected to vest, with corresponding increase in equity. The employee stock option outstanding account is shown under Reserves and Surplus.

The Parent Company has created an Employee Welfare Trust for providing share-based payment to its employees for (a) SBFC Stock Option Policy I 2018 and (b) SBFC Stock Option Policy 2021 – I policies. The Group uses the Trust as a vehicle for distributing shares to employees under the employee remuneration schemes for the above mentioned two policies. The Group allots shares to the Trustee of the Trust, for giving shares to employees. The Group treats Trust as its extension and shares held by the Trust are treated as treasury shares.

(iii) Leases:

In accordance with Ind AS 116 – Leases at the date of commencement of the lease, the Group has recognised a Lease Liability, except for leases with a term of 12 months or less (short-term leases) and low value leases.

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate. The Group makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any option to extend or terminate the contract will be exercised. In evaluating

the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to termination of lease and the importance of the underlying to the Group's operation taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflect the current economic circumstances.

The right-of-use assets is subsequently measured at cost less accumulated depreciation, accumulated impairment losses, if any, and adjusted for any remeasurement of the lease liability.

The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the consolidated statement of profit and loss.

The Group recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and consolidated statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in consolidated statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lock in period of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

(iv) Other income and expenses

All Other income and expense are recognized in the period they occur.

(v) Impairment of non-financial assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation

is provided on the revised carrying amount of the asset over its remaining useful life.

Goodwill represents the excess of the cost of an acquisition over the fair value of the Company's share of the net identifiable assets of the acquired entity at the date of acquisition. Goodwill is carried at cost less accumulated impairment losses. Impairment loss on goodwill is not reversed. Goodwill is not subject to amortization and tested at least annually for impairment or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount.

(vi) Taxes

Current Tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity.

Goods and services tax/ service tax/ value added taxes paid on acquisition of assets or on incurring expenses:

Expenses and assets are recognised net of the goods and services tax/ service tax/ value added taxes paid, except:

- i. When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- ii. When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.9 Cash and cash equivalents

Cash and cash equivalents comprise the net amount of short-term, highly liquid investments that are readily convertible to known amounts of cash (short-term deposits with an original maturity of three months or less) and are subject to an insignificant risk of change in value. They are held for the purposes of meeting short-term cash commitments (rather than for investment or other purposes).

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short- term deposits, as defined above.

2.10 Property, plant and equipment

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance and cost can be measured reliably. Other repairs and maintenance costs are expensed off as and when incurred.

Depreciation

Depreciation is calculated using the straight line method to write down the cost of property and equipment to their residual values over their estimated useful lives which is in line with the estimated useful life as specified in Schedule II of the Act except for Leasehold improvements which are amortised on a straight-line basis over the period of lease or 3 years whichever is less. Leasehold improvements include all expenditure incurred on the leasehold premises that have future economic benefits. The estimated useful lives are as prescribed by Schedule II of the Act. The residual values,

useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The estimated useful lives as used by the Group are listed below:

Nature of assets	Useful life in years
Computers	
End user machines	3
Servers and networks	6
Furniture and Fixtures	10
Office equipment	5
Vehicle	8

Property plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income/ expense in the consolidated statement of profit and loss in the year the asset is derecognised. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

2.11 Intangible assets

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Group.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of an intangible asset comprises its purchase price and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life, or the expected pattern of consumption of future economic benefits embodied in the asset, are accounted for by changing the amortisation period or methodology, as appropriate, which are then treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is presented as a separate line item in the consolidated statement of profit and loss. Amortisation on assets acquired/ sold during the year is recognised on a pro-rata basis to the consolidated Statement of Profit and Loss from/ upto the date of acquisition/ sale.

Amortisation is calculated using the straight-line method to write down the cost of intangible assets to

their residual values over their estimated useful lives. Intangible assets comprising of software are amortised on a straight-line basis over a period of 5 years, unless it has a shorter useful life.

Intangible assets with indefinite useful life is tested for impairment at each reporting period.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the consolidated Statement of Profit and Loss when the asset is derecognised.

2.12 Provisions

Provisions are recognised when the enterprise has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of the time value of money is material, the enterprise determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the consolidated Statement of Profit and Loss net of any reimbursement.

2.13 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

2.14 Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- estimated amount of contracts remaining to be executed on capital account and not provided for;
- Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

2.15 Earnings Per Share

The Group reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the diluted earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

2.16 Segments

Based on "Management Approach" as defined by Ind AS 108, The Chief Operating Decision Maker (CODM) evaluates the "Operating Segments". Operating segments are reported in a manner consistent with the internal reporting provided to the CODM. The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Group.

2.17 Significant accounting judgements, estimates and assumptions

The preparation of consolidated financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are included in the following notes:

2.17.1 Impairment of loans portfolio

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining

impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

2.17.2 Share-Based Payments

Estimating fair value for share-based payment transactions requires use of an appropriate valuation model. The Group measures the cost of equity-settled transactions with employees using Black-Scholes Model to determine the fair value of the options on the grant date.

Inputs into the valuation model, includes assumption such as the expected life of the share option, volatility and dividend yield.

Further details used for estimating fair value for share-based payment transactions are disclosed in Note 40.

2.18 Operating Cycle

Based on the nature of products/ activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months.

2.19 Foreign Currency

Foreign currency transactions:

Foreign currency transactions are recorded on initial recognition in the functional currency using the exchange rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date.

Exchange differences arising on the settlement or translation of monetary items are recognised in Consolidated Statement of profit or loss in the year in which they arise.

2.20 Recent Accounting Pronouncements

39.1 Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

39.2 Valuation technique used to determine fair value

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below.

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (adjusted/unadjusted) for identical assets. This category consists of quoted mutual fund units and government securities.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets, measured using inputs other than quoted prices included within Level 1 that are observable for the asset, either directly (i.e.; as prices) or indirectly (i.e.; derived from prices). This category includes derivative financial instruments.

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets measured using inputs that are not based on observable market data. Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. This category includes investment in Pass-through Certificates.

There has been no transfer between level 1, level 2 and level 3 for the year ended March 31, 2025 and March 31, 2024.

The carrying amounts of trade receivables, trade payables and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

The fair value of Loan approximates the carrying amount.

For financial assets and liabilities measured at fair value, the carrying amounts approximates the fair values.

40 Employee Benefits

(a) Defined Contribution plans

Provident Fund

The Parent Company makes Provident Fund contributions to defined contribution retirement benefit plans for eligible employees. Under the schemes, the Parent Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions as specified under the law are paid to the Employee Provident Fund Organization (Government).

The parent Company recognized expense as contribution to provident fund amounting to ₹ 119.30 Million (March 31, 2024: ₹ 95.78 Million) in the statement of profit and loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

(b) Defined benefit plans

Gratuity Fund

Characteristics of defined benefit plan

The Parent Company has a defined benefit gratuity plan in India (funded). The Parent Company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to SBFC Finance Private Limited employees group gratuity cash accumulation scheme.

Risks associated with defined benefit plan

Gratuity is a defined benefit plan and Parent Company is exposed to the following risks:

A. Actuarial Risk: It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

B. Investment Risk: For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

C. Liquidity Risk: Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/ retire from the Parent Company there can be strain on the cashflows.

D. Market Risk: Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/ government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

E. Legislative Risk: Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

During the year ended March 31, 2025 and March 31, 2024, there were no plan amendments, curtailments and settlements.

The Life Insurance Corporation is managing the Gratuity Plan and the contributions to it is done as guided by rule 103 of Income Tax Rules, 1962.

Other Post Retirement Benefit Plan

The details of the Parent Company's post-retirement benefit plans for its employees including whole-time directors are given below which is as certified by the actuary and relied upon by the auditors.

(c) Code on Social Security

The Indian parliament has approved Code on Social Security, 2020 ("the Code") which would impact the contributions by the Company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on 13 November 2020 and has invited suggestions from stakeholders which are under active consideration by the Ministry. The Company will assess the impact and its evaluation once the subject rules are notified and will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

46 As on the date of balance sheet, there were no internal or external indications exists that require management to assess the recoverability amount of the asset. Therefore, the Group believes no impairment of assets is required as per Ind AS 36 "Impairment of Assets".

The Parent Company has carried impairment testing by discounting the projected future cash flows and has enough head room against the carrying amount of ₹ 2,603.92 Million. Considering the head room that the Company has, there is no need for impairment. Therefore, there is no Impairment of Goodwill in the books as on March 31, 2025 and March 31, 2024.

47.1 The Company's pending litigations comprise of claims against the Company by the customers and proceedings pending with other authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in the financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial statements.

48 Risk Disclosures

The Parent Company's risk is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Parent Company's continuing profitability and each individual within the Parent Company is accountable for the risk exposures relating to his or her responsibilities. The Parent Company is exposed to credit risk, liquidity risk, interest rate risk and price risk.

It is the Parent Company's policy to ensure that a robust risk awareness is embedded in its organizational risk culture.

48.1 Credit risk

Credit risk is the risk that the Parent Company will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Parent Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties.

48.1.1 Impairment assessment

During the current year, the Parent Company has made refinement in the ECL model and said changes have been updated in the ECL policy which is duly approved by the audit committee. However, there is no material impact on the financial statements of the Group.

Exposure at Default

EAD is taken as the gross exposure under a facility upon default of an obligor. The amortized principal and the interest accrued is considered as EAD for the purpose of ECL computation

The advances have been bifurcated into following three stages:

Stage 1

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The Parent Company classifies all standard advances and advances up to 0-29 days default under this category. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.

Stage 2

All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. Financial assets past due for 30-89 days are classified under this stage. The Parent Company uses the below criteria for assessing movement to Stage 2:

- a) Financial assets past due between 30-89
- b) The Parent Company becomes aware about any deterioration in the financial condition and reputation of the obligor which the management believes may lead to significant deterioration in credit risk

Stage 3

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. 90 days Past Due is considered as default for classifying a financial instrument as credit impaired. If an event warrants a provision higher than as mandated under ECL methodology, the Parent Company may classify the financial asset in Stage 3 accordingly.

Non performing Asset classification is done in line with Reserve Bank of India Master Circular on Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances and Clarifications dated November 12, 2021 and dated February 15, 2022."

Significant increase in credit risk

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

The Parent Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Parent Company does the assessment of significant increase in credit risk at a borrower level. If a borrower has various facilities having different past due status, then the highest days past due (DPD) is considered to be applicable for all the facilities of that borrower.

PD estimation process

Probability of default ("PD") is defined as the likelihood of default over a particular time horizon. The PD of an obligor is a fundamental risk parameter in credit risk analysis and depends on obligor specific as well as macroeconomic risk factors. The impact of macroeconomic criteria on the PD results in two different PD estimates, through-the-cycle ("TTC") and the point-in-time ("PIT") PD. A TTC PD estimate remains largely unaffected by the economic cycle, while a PIT PD estimate varies with the economic cycle.

Loss given default

The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD.

48.1.2 Analysis of risk concentration

48.1.3 Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Parent Company has Guidelines in place covering the acceptability and valuation of each type of collateral. The Parent Company also adheres to the RBI guidelines in respect of maintenance of adequate Loan to Value Ratios.

The main types of collateral for loans are Registered / equitable mortgage of property, Hypothecation of assets including Gold. Management monitors the market value of collateral and requests additional collateral in accordance with the underlying agreement.

In case of defaults by customers, where the Parent Company is unable to recover the dues, the Parent Company through a legal process enforces the security and recover the dues.

48.2 Liquidity risk and funding management

Liquidity risk is defined as the risk that the Parent Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Parent Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. Such scenarios could occur when funding needed for illiquid asset positions is not available to the Parent Company on acceptable terms. To limit this risk, management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity in mind and monitoring future cash flows and liquidity on a daily basis.

Liquidity risk is managed in accordance with our Asset Liability Management Policy. This policy is framed as per the current regulatory guidelines and is approved by the Board of Directors. The Asset Liability Management Policy is reviewed periodically to incorporate changes as required by regulatory stipulation or to realign the policy with changes in the economic landscape. The Parent Company also maintains LCR in accordance with RBI guidelines and board approved Liquidity risk framework. The Asset Liability Committee (ALCO) of the Parent Company formulates and reviews strategies, LCR and provides guidance for management of liquidity risk within the framework laid out in the Asset Liability Management Policy.

Analysis of financial assets and liabilities by remaining contractual maturities is provided in **Note 38**

48.3 Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

The core business of the Parent Company is providing loan against property, loan against gold and personal loans. The Parent Company borrows through various financial instruments to finance its core lending activity. These activities expose the Parent Company to interest rate risk.

Interest rate risk is measured through earnings at risk from an earnings perspective and through duration of equity from an economic value perspective. Further, exposure to fluctuations in interest rates is also measured by way of gap analysis, providing a static view of the maturity and re-pricing characteristic of Balance sheet positions. An interest rate sensitivity gap report is prepared by classifying all rate sensitive assets and rate sensitive liabilities into various time period categories according to contracted/ behavioural maturities or anticipated re-pricing date. The difference in the amount of rate sensitive assets and rate sensitive liabilities maturing or being re-priced in any time period category, gives an indication of the extent of exposure to the risk of potential changes in the margins on new or re-priced assets and liabilities. The interest rate risk is monitored on a quarterly basis.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being considered as constant) of the Parent Company's statement of profit and loss and equity.

48.4 Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign currency rates. The Parent Company is mainly exposed to changes in USD. The below table demonstrates the sensitivity to a 5% increase or decrease in the respective foreign currency rates against INR, with all other variables held constant. The sensitivity analysis is prepared on the net unhedged exposure of the Parent Company as at the reporting date. 5% represents management's assessment of reasonably possible change in foreign exchange rate. The Parent's exposure to the risk of changes in foreign exchange rates relates primarily to the foreign currency borrowings from banks and vendor payments. The Parent Company has hedged its foreign currency exposure arising from bank borrowings through forward contracts in such a manner that it has fixed determinate outflows in its functional currency and as such there would be no significant impact of movement in foreign currency rates on the Group.

As of balance sheet date, Company's net foreign currency exposure expressed in INR that is not hedged is ₹ Nil (March 31, 2024 - NIL)

49 Transferred financial assets that are not derecognized in their entirety

The Parent Company has entered into securitization arrangements to transfer the part of its portfolio of Loan against property. The terms of the arrangement included over collateralization of the assets of the Parent Company through lien on Fixed deposits. Since the Parent Company had retained significant risk in the transfer of the portfolio, the asset is retained in the books. Consequently, the amount received as sale consideration is shown as Collateralized borrowings in the financial statements.

- Members are requested to attend and participate at the ensuing AGM through VC / OAVM and cast their vote either through remote e-voting facility or through e-voting facility to be provided during AGM.

12. The remote e-Voting period commences on **Thursday, 10th July, 2025 from 9.00 a.m. (IST) and ends on Sunday, 13th July, 2025 at 5.00 p.m. (IST)**. During this period, members of the Company holding shares either in physical form or in demat form, as on **Monday, 7th July, 2025 ('Cut-off date')** may cast their vote by remote e-voting. The remote e-voting module shall be disabled by KFinTech for voting thereafter. Once the vote on a resolution is cast by a member, the member shall not be allowed to change it subsequently.
13. The facility of e-voting during the AGM will be available to those members who have not cast their vote by remote e-voting. Members, who cast their vote by remote e-voting, may attend the AGM through VC/OAVM, but will not be entitled to cast their vote once again on the resolutions. If a member cast votes by both modes i.e. voting at AGM and remote e-voting, voting done through remote e-voting shall prevail and vote at the AGM shall be treated as invalid.
14. In compliance with the provisions of Section 108 of the Act, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended from time to time, Regulation 44 of the SEBI Listing Regulations and SEBI circular SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated December 9, 2020, members are provided with the facility to cast their vote electronically, through the e-voting services provided by KFinTech, on all the resolutions set forth in this Notice.
15. Individual demat account holders would be able to cast their vote without having to register again with
- the e-voting service provider ('ESP') thereby not only facilitating seamless authentication but also ease and convenience of participating in e-voting process. Members are advised to update their mobile number and e-mail ID with their DPs to access e-voting facility.
16. The voting rights of members shall be in proportion to their shares in the paid-up equity share capital of the Company as on the Cut-off date i.e., Monday, 7th July, 2025.
17. Any person holding shares in physical form and non-individual shareholders, holding shares as on the Cut-off date, may obtain the login ID and password by sending a request at evoting@kfintech.com. Item No. 6 and 7 :

The Company introduced the SBFC Stock Option Policy I 2018 ("ESOP 2018-I Policy") in 2018, effective September 29, 2018, and SBFC Stock Option Policy 2021- I ("ESOP 2021-I Policy") in 2021, effective October 20, 2021. Both these Policies are administered through the SBFC Employee Welfare Trust ('Trust') and were last amended in October, 2022.

The objectives and purpose of both the Policies are, inter alia, to attract and retain appropriate human capital in the employment of the Company, motivate the employees of the Company with incentives and reward opportunities, align the interests of the employees with those of the Company and its Members, and to create a sense of ownership and participation amongst the employees, thereby promoting their welfare.

As a beneficial measure towards the Eligible Employees, based on the recommendation of the Nomination and Remuneration Committee, at its meeting held on April 24 2025, the Board of Directors of the Company, at its meeting held on April 26, 2025, has approved of certain amendments to both the Policies pertaining to clauses related to definition of Eligible Employee, Exercise Period, Relevant Date, SBFC Trust Deed, Vesting Period, Vesting Schedule, and Exercise Price, subject to the approval of the Members of the Company.

As per Rule 12 of the Companies (Share Capital and Debentures) Rules, 2014, the Company may, by way of a Special Resolution, vary the terms of the Employees Stock Options not yet granted by the employees provided that such variation is not prejudicial to the interests of the Option holders.

As per Regulation 7 of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 as amended from time to time, the company may by special resolution of its shareholders vary the terms of the schemes offered pursuant to an earlier resolution of the general body but not yet exercised by the employees, if such variation is not prejudicial to the interests of the employees.

Further, as per Clauses 12.3 and 13.3 of ESOP 2018-I Policy and ESOP 2021-I Policy respectively, the Company may, by a Special Resolution in a General Meeting, vary the terms of the Policies, provided such variation is not prejudicial to the interest of the Employees. The Members to note that the proposed amendments to the ESOP 2018-I Policy and ESOP 2021-I Policy would be applicable to the Employee Stock Options not yet granted and hence any variation in the ESOP 2018-I Policy and ESOP 2021-I Policy will not be considered as prejudicial to the interest of the Employees.

The approval of the Members is being sought by way of a Special Resolution under Rule 12 of the Companies (Share Capital and Debentures) Rules, 2014, Regulation 7 of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, as also Clauses 12.3 and Clause 13.3 and other provisions of the Policies, for the amendment of the existing ESOP 2018-I Policy and ESOP 2021-I Policy, respectively.

The other terms and conditions of the ESOP Policies apart from the ones mentioned in comparative statement below shall continue to remain the same and it will not affect any earlier options granted under the Plan.

The information as required under Regulation 6 read with Part C of the Schedule I to the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, is as detailed below:

a. Brief Description of ESOP 2018-I Policy and ESOP 2021-I Policy:

The ESOP 2018-I Policy and ESOP 2021-I Policy (hereinafter together referred to as 'Policies') shall be implemented through the SBFC Employee Welfare Trust, a trust set up by the Company for implementation of ESOP policies approved by the Board, as amended from time to time, for the benefit of the Eligible Employees (hereinafter referred to as the 'Trust').

The Policies shall apply to Employees as designated by the Company who is exclusively working in India or outside India including a Director of the Company, whether a Whole-time Director (as defined under relevant provisions of the Companies Act, 2013) or not, including a Non-Executive Director who is not a promoter or member of the promoter group (but at all times

excluding an Independent Director of the Company or an Employee who is a promoter or a person belonging to the promoter group or a Director who either himself or through his relative or through any body corporate, directly or indirectly, holds more than ten percent of the outstanding equity shares of the Company).

The Nomination & Remuneration Committee ('NRC') shall act as Compensation Committee for the Policies. The Policies shall be operated and administered by the Trustees of the Trust or the NRC. The NRC shall have the authority to vary the terms of the Policies in accordance with the Companies Act, 2013 ('the Act'), the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 and all the Applicable Laws, subject to approval of shareholders of the Company.

The objectives of the Policies are:

- To provide means to enable the Company to attract and retain appropriate human capital in the employment of the Company;
- To motivate the Eligible Employees of the Company with incentives and reward opportunities;
- To achieve sustained growth of the Company and the creation of shareholder value by aligning the interests of the Eligible Employees with the long-term interests of the Company; and
- To create a sense of ownership and participation amongst the Eligible Employees.

b. The total number of options, shares or benefits, as the case may be, to be offered and granted under the Policies:

The total Stock Options that can be granted under ESOP 2018-I Policy were 1,08,40,000 (One Crore Eight Lakh Forty Thousand) out of which 1,04,23,000 Stock Options has already been granted and exercised and now up to 4,17,000 Stock Options remain to be offered or granted under the Policy.

The total Stock Options that can be granted under ESOP 2021-I Policy were 30,25,000 (Thirty Lakh Twenty-Five Thousand) out of which 25,32,500 Stock Options has already been granted and exercised and now up to 4,92,500 Stock Options remain to be offered or granted under the Policy.

A Grant made shall be subject to adjustment, by the Company, at its discretion as to number and price of Options or Shares, as the case may be, in the event of 'Change in Capital Structure' or a 'Corporate Action' as defined under the Policies.

c. Identification of classes of employees entitled to participate and be beneficiaries in the Policies:

Following classes of Employees are eligible to participate in the Policies:

- an employee as designated by the Company, who is exclusively working in India or outside India; or

- a director of the Company, whether a whole-time director (as defined under relevant provisions of the Act) or not, including a non-executive director who is not a promoter or member of the promoter group, but at all times excluding:

- an independent director of the Company; or
- an employee who is a promoter or a person belonging to the promoter group; or
- a director who either himself or through his relative or through any body corporate, directly or indirectly, holds more than ten percent of the outstanding equity shares of the Company.

Provided, however, a contractual employee can also be designated by the Company as an Eligible Employee.

d. Requirements of vesting and period of vesting under the Policies:

The Options would vest not earlier than 15 months and not later than 48 months from the date of Grant of Options. The Nomination and Remuneration Committee ('NRC') may, make the vesting of any or all of the Options awarded to an employee conditional upon the fulfilment of such performance criteria whether of the Employee and/ or any team or group of which he is a part and/ or of the Company, as may be determined by the NRC or determine a vesting schedule other than that specified herein above for any Employee or class of Employees. Subject to the grant letter, unless the NRC provides otherwise, the vesting of options granted under the Policies shall be suspended during any authorized or unauthorized leave of absence for such period as may be determined by the NRC as per its discretion and such decision in this regard shall be final and binding on the Grantees. Further, NRC shall be entitled in its absolute discretion, to vary or alter the vesting schedule from Grantee to Grantee or class thereof, as it may deem fit, subject to fulfillment of minimum vesting period.

e. Maximum period within which the options / benefits shall be vested under the Policies:

The maximum period within which the Options shall be vested under the Policies shall be as mentioned in point no. (d) above.

f. Exercise price, purchase price or pricing formula under the Policies:

Under the Policies the Exercise Price of the Vested Option shall be determined based on the average closing price of immediate five trading days of the Relevant Date in case of grant as defined in the Policies.

g. Exercise period/offer period and process of exercise/acceptance of offer under the Policies:

The Exercise Period shall commence from the date of vesting and will expire on completion of 15 months from the date of vesting under the Policies.

The process of exercise/acceptance of offer shall be as per the Grant Letter or as may be determined by the NRC.

Options vested shall have to be mandatorily exercised within the Exercise Period and the Options shall lapse if not exercised within the Exercise Period.

h. The appraisal process for determining the eligibility of employees for the Policies:

The NRC shall have the right and discretion to identify Eligible Employees. The decision of the NRC with respect to the eligibility of an Employee for Options and the terms and conditions of such Options, shall be final and is not subject to challenge.

i. Maximum number of options, shares, as the case may be, to be offered and issued per employee and in aggregate, if any, under the Policies:

Under the Policies there is no limit of offer or issue of number of options or shares per employee. However, in a year no single employee will be offered or issued more than 1% of the issued capital. The maximum no. of options or shares to be offered or issued in aggregate under the Policies shall not exceed the limits specified in point no. (b) above.

j. Maximum quantum of benefits to be provided per employee under the Policies:

The maximum quantum of benefits underlying the stock options granted to an employee can be construed to be an amount equal to the appreciation in the value of the Company's equity shares determined as on the date of exercise of stock options, on the basis of difference between the stock option Exercise Price and the Market Price of the equity shares on the exercise date.

k. Whether the Policies are to be implemented and administered directly by the Company or through a Trust:

The Policies are to be administered through the SBFC Employee Welfare Trust, a trust set up by the Company for implementation of ESOP policies approved by the Board, as amended from time to time, for the benefit of the Eligible Employees. The Policies shall be operated and administered by the Trustee(s) of the Trust or the NRC.

l. Whether the Policies involves new issue of shares by the Company or secondary acquisition by the Trust or both:

Clause 4.6 of both the Policies involves secondary acquisition by the Trust, however neither the Company intends to issue any new shares to the Trust nor the Trust intends to buy any further shares through secondary acquisition.

m. The amount of loan to be provided for implementation of the Policies by the Company to the Trust, its tenure, utilization, repayment terms, etc.:

Clause 4.5 of the Policies authorizes the Trust to borrow funds from the Company or other permissible sources, in accordance with applicable laws, for the purpose of implementing the Policies. While the Company has extended loans to the Trust in the past, no new loan is currently proposed to be extended to the Trust.

n. Maximum percentage of secondary acquisition (subject to limits specified under the regulations) that can be made by the Trust for the purposes of the Policies:

The maximum percentage of secondary acquisition that can be made by the Trust for the purposes of the Policies shall not exceed 5 (five) percentage of the paid-up equity capital of the Company as at the end of the financial year immediately prior to the year in which the shareholders' approval is obtained for such secondary acquisition (as specified under the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 ('SEBI SBEB Regulations'). However, currently there is no intention for the Trust to undertake any further secondary acquisition.

o. A statement to the effect that the Company shall conform to the accounting policies specified in regulation 15 of the SEBI SBEB Regulations:

The Company shall confirm to the applicable Accounting Standards and Policies as applicable to the Company and specified in Regulation 15 of the SEBI SBEB Regulations from time to time.

p. The method which the Company shall use to value its Options:

The Company shall use the Fair Value Method for valuation of the Stock Options as prescribed under the Accounting Standards, as applicable and notified by appropriate authorities from time to time.

q. Declaration:

The following declaration required under the SEBI SBEB Regulations is not applicable since the Company will adopt fair value method for valuation of Stock Options:

'In case the company opts for expensing of share based employee benefits using the intrinsic value, the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value, shall be disclosed in the Directors' report and the impact of this difference on profits and on earnings per share ('EPS') of the company shall also be disclosed in the Directors' report.'

r. Period of lock-in:

The equity shares allotted upon exercise of Stock Options under the Policies are not subject to any lock in period.

s. Terms & conditions for buyback, if any, of specified securities covered under the SEBI SBEB Regulations:

None.

t. Rationale for the variation of the ESOP Plan

The Policies have been amended to incorporate changes to certain provisions, including but not limited to those relating to Eligible Employee, Exercise Period, Relevant Date, Vesting Period and Schedule, and Exercise Price. These amendments have been undertaken to align the provisions with the Company's other existing ESOP Policies, thereby facilitating uniformity and ensuring ease in the administration of the ESOP framework. A detailed comparative statement of the proposed amendments is provided below for reference.

All relevant documents and papers referred to in this Notice and Explanatory Statement shall be available for electronic inspection without any fee by the Members, as provided in Note No. 5 of the Notes to this Notice.

None of the Directors or key managerial personnel of the Company or their relatives are concerned or interested, directly or indirectly, financially, or otherwise, in these resolutions, except to the extent of their respective shareholding, if any, in the Company or to the extent they are granted any employee stock options under the ESOP 2018-I Policy and/or ESOP 2021-I Policy, in accordance with the applicable law.

The Board of Directors recommends passing of the Special Resolutions as set out in item nos. 6 and 7 of this Notice.

Item No. 8:

The Company, in the ordinary course of its business, is required to borrow from time to time, by way of loans, external commercial borrowings, issue of non-convertible debentures (secured or unsecured) and/or other instruments. The inter-mix of borrowings by the Company depends upon the market conditions, cost of funds, tenor, etc.

In terms of Section 42 of the Companies Act, 2013 ('Act') read with Rules framed thereunder including the Companies (Prospectus and Allotment of Securities) Rules, 2014, as amended from time to time, read with the SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021, as amended from time to time, other applicable SEBI regulations, circulars and guidelines, the directions issued by the Reserve Bank of India ('RBI'), a company offering or making an invitation to subscribe to NCDs (including Bonds) on a private placement basis, is required to obtain prior approval of the members by way of a special resolution.

Members of the Company have approved similar proposal at its last Annual General Meeting (AGM) by way of a special resolution i.e., at 17th AGM. The resolution passed by the members at its 17th AGM had authorized the Company to issue NCDs within the overall borrowing limit for a period of one year from the date of its last AGM.

Accordingly, it is proposed to seek fresh approval of members by way of another special resolution to authorize the Board to borrow by issue of NCDs on private placement basis, in the ordinary course of its business, for a period of one year

commencing from the date of AGM. Further, the amount to be raised by such issue of NCDs will be within the overall outstanding borrowing limit of ₹ 10,000 crore approved by the members of the Company under section 180(1)(c) of the Act.

The debentures would be issued either at face value or at a discount or at a premium, with coupon rate and/or on zero coupon basis, in such manner as may be permissible under the Act, RBI Guidelines and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The issue price and rate of interest depends, inter alia, on the market rates, tenor and security offered. In case of secured NCDs, security would primarily be by way of charge on any one or more asset of the Company.

Accordingly, the approval of the members is being sought by way of a special resolution under Section 42 and other applicable provisions, if any, of the Act and the Rules framed thereunder to offer / invite / issue / reissue / allot up to such number of NCDs including but not limited to Subordinated / Perpetual NCDs/ Green debt securities, any other type of Bond, whether secured and/or unsecured, listed or unlisted, redeemable, up to an amount of ₹ 3,000 crore (Three thousand crore), on a private placement basis, in one or more tranches, on such terms and conditions as the Board may deem fit and depending on the prevailing market conditions, during a period of one year from the date of passing of resolution set out at Item No. 8 of this Notice, within the overall borrowing limits of the Company, as approved by the members from time to time.

Further, it is proposed to grant authority to the Board of Directors (hereinafter referred to as the 'Board' the term shall be deemed to include any committee constituted / which may be constituted by the Board of Directors or any other person(s) for the time being authorized by the Board of Directors to exercise powers conferred on the Board of Directors) to delegate or determine the terms of issue of NCDs.

In view of the aforesaid, the Board recommends the special resolution set forth in Item No. 8 for approval of the members.

None of the Directors, Key Managerial Personnel and their relatives, other than to the extent of their shareholding in the Company, are concerned/interested, financially or otherwise, in the said resolution.
